

# Screenshot and Demonstration

## Teacher Mobile App and Admin Web Portal

|               |                                                  |
|---------------|--------------------------------------------------|
| Document type | Screenshot and Demonstration                     |
| Project type  | Web and mobile attendance management application |
| Academic year | 2022-2023                                        |
| Prepared by   | Shiv Satyam Singh, Business Analyst              |
| Version       | 1.0                                              |
| Status        | Final                                            |

## Document purpose

This document presents screen evidence for the ABC School Attendance Management System. It shows how teacher attendance submission is captured through the mobile app and how admin users review attendance, manage records and view reports in the admin web portal.

The screenshots use anonymised school records. The document is prepared as a professional case study and demonstration file.

## Scope covered

- Teacher login and daily attendance submission through the mobile app.
- Admin login and restricted access to the admin web portal.
- Student and teacher master record management.
- Submitted attendance monitoring by date, class, section and status.
- View-only attendance reports by overview, class, date and student.

## Project Overview

| Area               | Summary                                                                                                                         |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Business problem   | Manual attendance tracking created delay in daily visibility, follow-up and reporting.                                          |
| Business objective | Provide a simple digital attendance flow where teachers submit attendance and admin users monitor submitted or pending records. |
| Primary users      | Teacher users and admin users.                                                                                                  |
| Phase 1 scope      | Login, attendance marking, admin dashboard, student records, teacher records, submitted attendance view and reports.            |
| Out of scope       | Export, download, print, email reports and date-range reporting.                                                                |
| Access rule        | Teacher users can access mobile attendance features only. Admin web features are restricted to admin users.                     |

## User Flow

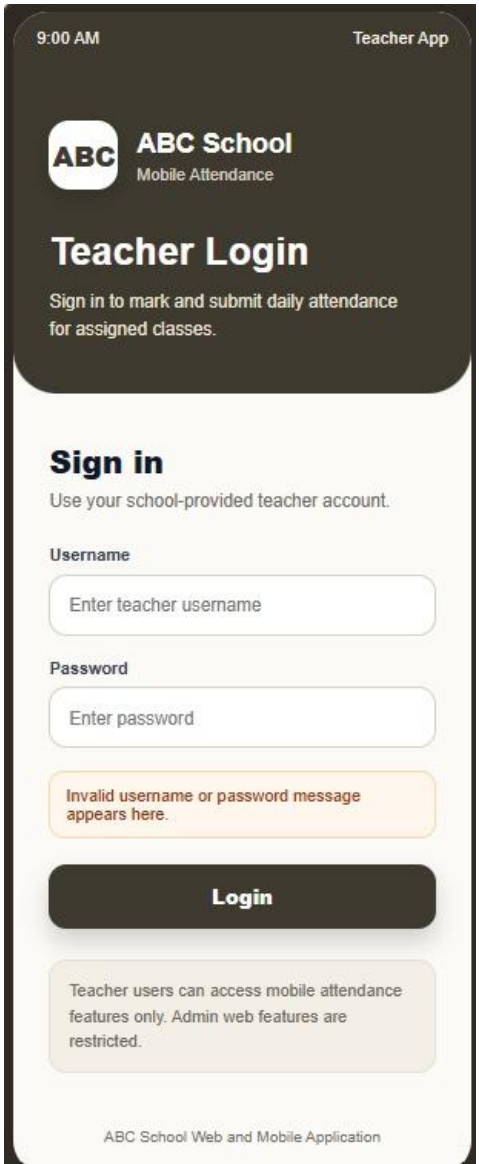

| Step | User    | Action                                                  | Evidence screen           |
|------|---------|---------------------------------------------------------|---------------------------|
| 1    | Teacher | Signs in using a school-provided username and password. | Teacher Login             |
| 2    | Teacher | Selects assigned class, section and attendance date.    | Mark Attendance           |
| 3    | Teacher | Marks each student as Present or Absent.                | Mark Attendance           |
| 4    | Teacher | Saves draft or submits daily attendance.                | Mark Attendance           |
| 5    | Admin   | Reviews dashboard summary and submission status.        | Admin Dashboard           |
| 6    | Admin   | Filters submitted attendance records.                   | Submitted Attendance View |
| 7    | Admin   | Views attendance reports by class, date or student.     | Attendance Reports        |

## Screenshot Index

| Screen ref. | Screen name                  | Module             | Main purpose                                             |
|-------------|------------------------------|--------------------|----------------------------------------------------------|
| S01         | Teacher Login                | Teacher mobile app | Teacher authentication before attendance marking.        |

| FR-04  | Teacher can save draft or submit attendance.                 | S02                | Covered |
| FR-05  | Admin user can log in to the admin web portal.               | S03                | Covered |
| FR-06  | Admin can view attendance summary on dashboard.              | S04                | Covered |
| FR-07  | Admin can manage student records.                            | S05                | Covered |
| FR-08  | Admin can manage teacher records and status.                 | S06                | Covered |
| FR-09  | Admin can view submitted and pending attendance.             | S07                | Covered |
| FR-10  | Admin can view reports by overview, class, date and student. | S08, S09, S10, S11 | Covered |

## UAT Demonstration Summary

| Test ID | Scenario                                            | Expected result                                           | Result |
|---------|-----------------------------------------------------|-----------------------------------------------------------|--------|
| TC-01   | Teacher logs in with valid credentials.             | Teacher reaches the attendance screen.                    | Pass   |
| TC-02   | Teacher marks students Present or Absent.           | Attendance status is captured for each student.           | Pass   |
| TC-03   | Teacher submits attendance.                         | Submitted record appears in the admin attendance view.    | Pass   |
| TC-04   | Admin filters attendance by class, date and status. | Filtered attendance records are displayed.                | Pass   |
| TC-05   | Admin opens report by class, date and student.      | Relevant report view is displayed without export actions. | Pass   |

## BA Contribution

- Defined the user roles, access boundaries and Phase 1 scope.
- Mapped the teacher-to-admin attendance flow.
- Prepared user stories and acceptance criteria for attendance submission and reporting.
- Reviewed UI screens against functional requirements and MVP boundaries.
- Prepared UAT scenarios to confirm login, attendance marking, submission, admin monitoring and reporting behaviour.
