

User Acceptance Testing Plan

Project Name

ABC School Web and Mobile Application

Document Purpose

This document defines the plan for User Acceptance Testing (UAT). UAT will be performed by ABC School users to confirm that the application meets the agreed business requirements.

UAT Objective

To validate that the web and mobile application supports the agreed Project 1 scope before release.

UAT Scope

Area	Feature to Validate	User Role
Login	Teacher can log in to mobile app	Teacher
Attendance	Teacher can select class and date	Teacher
Attendance	Teacher can mark students as Present or Absent	Teacher
Attendance	Teacher can submit attendance	Teacher
Admin Panel	Admin can add and edit student data	Admin
Admin Panel	Admin can add and edit teacher data	Admin
Reports	Admin can view attendance by class, date and student	Admin
Access Control	Teacher cannot access Admin features	Teacher
Access Control	Admin can access student, teacher and attendance records	Admin

UAT Participants

Participant	Role in UAT
Principal / Product Owner	Final approval and sign-off
Admin Staff	Validate admin web application
Teacher Representative	Validate teacher mobile application
Trainee Business Analyst	Support UAT and capture feedback
QA Tester	Support test environment and clarify tested features

Scrum Master	Coordinate UAT activity
--------------	-------------------------

UAT Entry Criteria

Criteria	Status
Sprint 1, Sprint 2 and Sprint 3 features are completed	Planned
QA testing is completed	Planned
Test environment is available	Planned
UAT users are identified	Planned
UAT scenarios are prepared	Confirmed

UAT Exit Criteria

Criteria	Status
Teacher attendance flow is accepted	Accepted
Admin student management is accepted	Accepted
Admin teacher management is accepted	Accepted
Attendance report is accepted	Accepted
Role-based access is accepted	Accepted
Product Owner provides sign-off	Pending Sign-off

UAT Scenarios

UAT ID	Scenario	Expected Result	User Role
UAT-01	Teacher logs in to mobile app	Teacher can access attendance screen	Teacher
UAT-02	Teacher selects class and date	Student list is displayed	Teacher
UAT-03	Teacher marks attendance	Students are marked Present or Absent	Teacher
UAT-04	Teacher submits attendance	Attendance is saved successfully	Teacher
UAT-05	Admin adds student record	Student record is saved	Admin
UAT-06	Admin edits student record	Student record is updated	Admin
UAT-07	Admin adds teacher record	Teacher record is saved	Admin
UAT-08	Admin edits teacher record	Teacher record is updated	Admin

UAT-09	Admin views attendance report	Report is displayed by class, date or student	Admin
UAT-10	Teacher tries to access Admin features	Access is restricted	Teacher

Sprint 2 Features Included in Final UAT

Sprint 2 Admin panel features were reviewed during Sprint 2 Review. Formal User Acceptance Testing will be completed in Sprint 3 as part of final end-to-end UAT.

Sprint 2 features to be validated during final UAT:

1. Admin login
2. Admin manages student data
3. Admin manages teacher data
4. Admin deactivates teacher record when required
5. Admin views submitted attendance

Reason:

Sprint 2 features are part of the complete ABC School application flow. Final UAT will validate Sprint 1, Sprint 2 and Sprint 3 features together before release sign-off.

Sprint 3 UAT Execution Plan

UAT Period:

30 July 20** to 31 July 20**

UAT Participants:

1. Product Owner / Principal
2. Admin Staff Representative
3. Teacher Representative
4. Trainee Business Analyst
5. QA Tester

UAT Scope:

1. Teacher login
2. Teacher marks student attendance
3. Teacher submits attendance
4. Admin login
5. Admin manages student data
6. Admin manages teacher data
7. Admin views submitted attendance
8. Admin views Attendance Report by Class
9. Admin views Attendance Report by Date
10. Admin views Attendance Report by Student

BA Role During UAT:

1. Explain UAT scenarios to users.
2. Support users during UAT execution.
3. Capture UAT results.
4. Clarify expected system behaviour.
5. Prepare UAT sign-off after successful validation.

Expected UAT Output:

ABC School users validate the complete application flow and Product Owner confirms whether the system is ready for release closure.

Final UAT Scenario Checklist

UAT ID	User Role	Scenario	Expected Result
UAT-11	Teacher	Teacher logs in to mobile application	Teacher can access attendance features
UAT-12	Teacher	Teacher selects class and date	Student list is displayed
UAT-13	Teacher	Teacher marks students Present or Absent	Attendance status is saved before submission
UAT-14	Teacher	Teacher submits attendance	Attendance is submitted successfully
UAT-15	Admin	Admin logs in to web application	Admin dashboard is displayed
UAT-16	Admin	Admin adds or edits student data	Student data is saved successfully
UAT-17	Admin	Admin adds, edits or deactivates teacher data	Teacher data is saved successfully
UAT-18	Admin	Admin views submitted attendance	Submitted attendance records are visible
UAT-19	Admin	Admin views attendance report by class	Class-wise attendance report is displayed
UAT-20	Admin	Admin views attendance report by date	Date-wise attendance report is displayed
UAT-21	Admin	Admin views attendance report by student	Student-wise attendance history is displayed

Note:

These scenarios will be executed during final UAT in Sprint 3 before release sign-off.

UAT Test Data Checklist

Test Data Item	Required For	Status
Admin test login	Admin web application testing	Planned
Teacher test login	Teacher mobile application testing	Planned

Active student records	Attendance marking and reports	Planned
Active teacher records	Teacher login and class assignment	Planned
Submitted attendance records	Admin attendance view and reports	Planned
Class and section data	Class-wise attendance report	Planned
Student attendance history	Student-wise attendance report	Planned

Note:

UAT test data will be confirmed before final UAT execution on 30 July 2026.

UAT Sign-Off Owner

Principal / Product Owner

BA Role During UAT

- Explain UAT scenarios to users.
- Support users during validation.
- Capture feedback.
- Confirm whether feedback matches agreed requirements.
- Prepare UAT Sign-off document after successful validation.

Next Action

Prepare User Acceptance Testing Sign-off document after UAT completion.
