

Discovery Meeting Notes

Official Website and Customer Enquiry Management System for a UK Auto Parts SME

Project Name	Official Website and Customer Enquiry Management System for a UK Auto Parts SME
Client Name	Auto Parts SME
Document Type	Discovery Meeting Notes
Prepared By	Business Analyst
Sprint	Sprint 0 Discovery Initiation
Linked Jira Task	Document Discovery Meeting Notes
Date	13 May
Version	v1.0

1. Purpose

The purpose of this document is to capture the key discussion points, decisions, open questions, assumptions, risks, and next steps from the discovery meeting for the Auto Parts SME website project.

2. Meeting Context

The meeting was held after the initial project intake, stakeholder identification, RACI Matrix preparation, and discovery question preparation. The objective was to confirm the business need, current enquiry process, website expectations, Phase 1 scope, and compliance items to review before delivery.

3. Meeting Details

Meeting Name	Website Discovery Meeting
Meeting Date	13 May
Meeting Time	09:30 AM to 10:45 AM UK time
Notes Preparation Time	10:45 AM to 11:30 AM UK time
Meeting Type	Discovery / Requirement Gathering
Facilitator	Business Analyst
Meeting Outcome	Business context, scope, current process, key requirements, compliance items, and next steps captured.

4. Attendees

Role	Involvement
Business Owner	Explained business goals, customer enquiry challenges, content expectations, and approval needs.
Product Owner	Confirmed delivery priority, Phase 1 focus, and scope boundaries.
Sales / Enquiry Handling Team	Explained current enquiry channels and quote handling needs.
Business Analyst	Facilitated the meeting, asked discovery questions, captured requirements, decisions, and open questions.
Scrum Master	Supported meeting structure, Sprint 0 tracking, and next action alignment.
UI/UX Designer	Provided early input on navigation, layout, and customer journey.
Website Developer	Provided early input on feasibility, forms, email notification, and responsive design.

5. Agenda

- Understand the business goal for the official website.
- Understand the current customer enquiry process.
- Confirm Phase 1 scope and out-of-scope items.
- Discuss product/category structure and website navigation.
- Discuss Request a Quote, Contact Us, Feedback, and newsletter requirements.
- Identify compliance areas that need business confirmation.
- Capture open questions, assumptions, risks, and next actions.

6. Key Discussion Summary

Topic	Discussion Notes
Business need	Auto Parts SME needs a professional website to improve online presence and make customer enquiry capture more structured.
Current process	Customer enquiries currently arrive through phone calls, WhatsApp messages, email, and informal product questions. Details may not be captured in a consistent format.
Target website	The website should allow customers to learn about the company, browse categories, submit quote requests, contact the business, provide feedback, and subscribe to updates.
Phase 1 focus	Phase 1 should remain a simple website MVP with enquiry forms and email notification. Full e-commerce and customer login are not included.
Future reporting	Phase 2 may consider SQL and Power BI reporting for enquiry and lead tracking after the website is live.

7. Current Customer Enquiry Process Captured

1. Customer contacts the business through phone, WhatsApp, email, or informal product enquiry.
2. Business team asks for product details, vehicle details, and customer contact details manually.
3. Business team checks availability or pricing information manually.
4. Business team responds to the customer through the same or preferred contact channel.
5. Follow-up is handled manually and may depend on individual notes or message history.

8. Confirmed Phase 1 Scope

- Home page with hero banner and Request a Quote call-to-action.
- About Us page for company background and trust information.
- Product / Featured Categories section including body parts, lighting, engines, differential, electrical, and gearbox categories.
- Request a Quote form with customer and product enquiry details.
- Contact Us page with contact form and business contact instructions.
- Feedback form for customer feedback capture.
- Newsletter subscription with consent and unsubscribe consideration.
- Footer links for customer service, legal notices, company links, and newsletter section.
- Privacy Policy, Cookie Policy, Terms and Conditions, and Delivery / Returns information pages.
- Mobile responsive layout, basic Search Engine Optimisation, email notification, User Acceptance Testing, and release readiness.

9. Phase 1 Out of Scope Confirmed

- Customer login and customer account dashboard.
- Online payment gateway and full e-commerce checkout.
- Live inventory management.
- Complex admin portal.
- Mobile app.
- API integration.
- SQL and Power BI dashboard.
- Advanced product recommendation engine.

10. Initial Requirements Noted

Area	Initial Requirement
Navigation	Header should include logo, About Us, Contact Us, Feedback, and Request a Quote button.
Homepage	Homepage should present business value clearly and guide users to request a quote.
Product categories	Categories should be easy to understand and should support browsing by major auto parts groups.
Request a Quote	Form should capture customer contact details, product/category interest, vehicle details where required, and enquiry message.
Email notification	Submitted quote requests and contact forms should notify the business by email.
Footer	Footer should include customer service links, legal links, company links, newsletter, and payment icon area only if approved.

11. Regulation and Compliance Items to Confirm

These are BA compliance discovery points only. Final wording and legal accuracy must be confirmed by the Business Owner or relevant advisor.

Area	Question / Action to Confirm	Owner
Company information	Confirm what company details must appear on the website footer or legal pages.	Business Owner
Privacy notice	Confirm privacy wording for quote, contact, feedback, and newsletter data collection.	Business Owner / Relevant Advisor
Cookies	Confirm whether analytics or non-essential cookies will be used and whether cookie preference is required.	Business Owner / Website Developer
Newsletter	Confirm consent checkbox wording and unsubscribe handling.	Business Owner / Relevant Advisor
Delivery / Returns	Confirm wording. If online sales are added later, review distance selling information.	Business Owner / Relevant Advisor
Customer-facing claims	Confirm claims such as free shipping, secure payment, money back, discount, or support availability before publishing.	Business Owner
Accessibility	Confirm basic accessibility checks for readable contrast, alt text, labels, error messages, keyboard use, and mobile layout.	Business Analyst / UI/UX Designer / QA Tester

12. Decisions Captured

Decision	Decision Owner
Phase 1 will focus on a simple official website with enquiry and quote request capability.	Product Owner / Business Owner
Online payment, full checkout, live inventory, login, and SQL/Power BI dashboard will remain out of Phase 1.	Product Owner / Business Owner
Request a Quote will be treated as a key customer action on the website.	Product Owner
Compliance wording will not be written by the BA as legal advice. It will be confirmed by the Business Owner or relevant advisor.	Business Owner

13. Open Questions

Open Question	Owner	Target Date
Which exact product categories should be used in Phase 1?	Business Owner / Sales Team	14 May 20xx
What fields are mandatory for the Request a Quote form?	Sales / Enquiry Handling Team	14 May 20xx
Will basic analytics be used in Phase 1?	Business Owner / Website Developer	15 May 20xx
Who will approve legal page wording?	Business Owner	15 May 20xx
Which customer-facing claims need approval or removal?	Business Owner / Content Owner	15 May 20xx

14. Assumptions and Risks

Type	Detail	Action
Assumption	The business will provide approved content for company information and product categories.	Track content ownership in backlog.
Assumption	Email notification is sufficient for Phase 1 enquiry handling.	Confirm email recipient and response process.
Risk	Delay in content approval may delay website delivery.	Assign content owner and review date.
Risk	Unconfirmed compliance wording may delay release readiness.	Add compliance review item to backlog.
Risk	Unverified marketing claims may create customer trust issues.	Confirm or remove claims before go-live.

15. Action Items

Action Item	Owner	Due Date	Status
Prepare Discovery Meeting Notes and store in Confluence.	Business Analyst	13 May 2026	In Progress
Document current customer enquiry process for As-Is Process Flow.	Business Analyst	13 May 2026	To Do
Confirm product category list for Phase 1.	Business Owner / Sales Team	14 May 2026	Open
Confirm mandatory fields for Request a Quote form.	Sales / Enquiry Handling Team	14 May 2026	Open
Confirm compliance wording owner.	Business Owner	15 May 2026	Open

16. Next Steps

- Store Discovery Meeting Notes in Confluence and link to Jira task.
- Move the Jira task to Done after Confluence evidence is saved.
- Proceed to document the current customer enquiry process.
- Use the current process notes to create the As-Is Process Flow in Draw.io or Microsoft Visio.
