

Initial Product Backlog

Official Website and Customer Enquiry Management System for a UK Auto Parts SME

Client Name	Auto Parts SME
Prepared By	Business Analyst
Project Phase	Phase 1 Website MVP
Sprint	Sprint 0 Discovery Initiation
Working Date	15 May 20xx
Document Version	v1.0
Document Purpose	To capture the initial Phase 1 product backlog before Sprint 1 planning.

1. Purpose

This document captures the initial Product Backlog for Phase 1 of the website delivery. It translates Sprint 0 discovery outputs into backlog items that can be reviewed, prioritised, refined, and planned for Sprint 1, Sprint 2, and Sprint 3.

2. Backlog Preparation Context

The backlog is based on the Project Intake Note, Stakeholder Register, Discovery Questions, Discovery Meeting Notes, Current Customer Enquiry Process, As-Is Process Flow, To-Be Process Flow, and Initial Website Sitemap. **Items outside Phase 1, such as customer login, online payment, live inventory, API integration, SQL dashboard, and Power BI dashboard, are not added to the Phase 1 delivery backlog.**

3. Prioritisation Approach

Priority	Meaning	Project Example
Must Have	Required for Phase 1 MVP and go-live.	Home page, Request a Quote, Contact Us, legal links, responsive design.
Should Have	Important, but can be adjusted if time is tight.	Feedback form, basic analytics if agreed, trust/service content review.
Could Have	Useful but not essential for initial go-live.	Additional product category detail, promotional banner variations.

4. Initial Product Backlog

Story points are used for user-facing delivery stories only. BA documentation tasks and review tasks are tracked using owner, status, sprint, and due date rather than story points.

ID	Epic / Area	Work Type	Backlog Item	Priority	Sprint Target	Story Points / Notes
PB-01	Website Structure and Navigation	Story	As a customer, I want to access the main website pages from a clear header navigation so that I can quickly find company information, contact details, and quote options.	Must Have	Sprint 1	3
PB-02	Website Structure and Navigation	Story	As a customer, I want to view a professional home page with clear business messaging and Request a Quote call-to-action so that I understand the website purpose quickly.	Must Have	Sprint 1	5
PB-03	Company Information	Story	As a customer, I want to view the About Us page so that I can understand the business background and service offering.	Must Have	Sprint 1	3
PB-04	Footer and Legal Links	Story	As a customer, I want footer links for customer service and legal information so that I can access important website information easily.	Must Have	Sprint 1	3
PB-05	Content and Trust Messaging	Task	Review trust/service card wording such as free shipping, support, money-back wording, secure payment wording, and discount wording with the Business Owner before publishing.	Must Have	Sprint 1	No story points for task

PB-06	Legal and Compliance Pages	Task	Prepare content requirements for Privacy Policy, Cookie Policy, Terms and Conditions, and Delivery / Returns information pages. Final wording to be confirmed by Business Owner or relevant advisor.	Must Have	Sprint 1	No story points for task
PB-07	Product Categories	Story	As a customer, I want to browse featured auto parts categories such as body parts, lighting, engines, differential, electrical, and gearbox so that I can find relevant product areas.	Must Have	Sprint 2	5

ID	Epic / Area	Work Type	Backlog Item	Priority	Sprint Target	Story Points / Notes

PB-10	Contact Us	Story	As a customer, I want to submit a Contact Us form so that I can send a general enquiry to the business.	Must Have	Sprint 2	5
PB-11	Feedback	Story	As a customer, I want to submit feedback so that I can share comments about the website or service.	Should Have	Sprint 2	3
PB-12	Newsletter	Story	As a customer, I want to subscribe to updates with clear consent so that I can receive future business updates.	Should Have	Sprint 2	3
PB-13	Responsive Design	Story	As a customer, I want the website to work on mobile, tablet, and desktop so that I can use it on my preferred device.	Must Have	Sprint 3	5

ID	Epic / Area	Work Type	Backlog Item	Priority	Sprint Target	Story Points / Notes
PB-14	Basic SEO	Task	Capture basic Search Engine Optimisation requirements including page titles, meta descriptions, headings, meaningful image alt text, and clean page structure.	Should Have	Sprint 3	No story points for task
PB-15	Basic Analytics	Task	Confirm whether basic analytics is required. If agreed, capture analytics requirement and cookie notice impact.	Could Have	Sprint 3	No story points for task
PB-16	Testing and UAT	Task	Prepare User Acceptance Testing scenarios for main pages, forms, validation messages, email notifications, mobile layout, and legal links.	Must Have	Sprint 3	No story points for task
PB-17	Release Readiness	Task	Prepare release readiness checklist covering scope, content, form testing, compliance confirmation, accessibility basics, and go-live approval.	Must Have	Sprint 3	No story points for task
PB-18	Future Enhancement	Epic Placeholder	Capture Phase 2 future enhancement for Customer Enquiry and Sales Lead Tracking Dashboard using SQL and Power BI after website go-live.	Future	Sprint 4 Future Enhancement	Not part of Phase 1

5. Definition of Ready for Sprint Planning

- Backlog item has a clear business purpose.
- Priority is understood by the Product Owner or Business Owner.
- Acceptance criteria can be drafted before development starts.
- Required content owner or compliance confirmation is identified where needed.
- Out-of-scope items are not accidentally included in Phase 1.

6. Phase 1 Out of Scope Reminder

The following items remain outside Phase 1: customer login, online payment gateway, full e-commerce checkout, live inventory management, customer account dashboard, complex admin portal, mobile app, API integration, SQL and Power BI dashboard, and advanced product recommendation engine.

7. BA Notes

This backlog is an initial Sprint 0 output. It should be reviewed with the Product Owner and Business Owner before Sprint 1 planning. Detailed user stories and acceptance criteria will be expanded during Sprint 1 and Sprint 2 refinement.
