

Stakeholder Register

Project Name	Official Website and Customer Enquiry Management System for a UK Auto Parts SME
Client Name	Auto Parts SME
Document Type	Stakeholder Register
Prepared By	Business Analyst
Sprint	Sprint 0 Discovery Initiation
Linked Jira Task	Prepare Stakeholder Register
Date	11 May 2026
Version	v1.0

1. Purpose

The purpose of this Stakeholder Register is to identify the key people and role groups involved in the Auto Parts SME website project. It helps the Business Analyst understand who gives requirements, who confirms decisions, who reviews outputs, and who needs project updates.

2. Stakeholder Summary

This project is a small Agile Scrum delivery for a professional website and customer enquiry capability. The stakeholders are grouped by business ownership, delivery role, content responsibility, testing, compliance review, and release support.

Stakeholder / Role	Project Role	Responsibility in this Project	Influence	Interest	Communication Need	Decision / RACI Note
Business Owner	Client-side decision maker	Confirms business goals, website scope, company content, product categories, trust claims, and go-live approval.	High	High	Weekly review and key approvals	A for business scope and release sign-off
Sales / Enquiry Handling Team	Daily enquiry users	Explains current enquiry process, quote handling, follow-up method, and customer information needed from forms.	High	Medium	Discovery workshop and requirement review	C for form fields and enquiry workflow

Content Owner	Website content provider	Provides About Us content, category text, footer links, legal page draft content, and approved marketing wording.	Medium	Medium	Content review sessions	R for content supply, C for content approval
Business Analyst	Requirement and documentation owner	Captures requirements, prepares BA documents, manages scope, supports backlog, reviews acceptance criteria, and supports User Acceptance Testing preparation.	High	High	Daily project coordination and sprint ceremonies	R for requirements and BA evidence
Product Owner	Priority and acceptance owner	Reviews requirements, confirms priorities, accepts sprint outputs, and supports business decision making.	High	High	Sprint planning, review, and requirement clarification	A for backlog priority and acceptance
Scrum Master	Agile delivery facilitator	Supports sprint setup, removes process issues, facilitates ceremonies, and helps team follow Agile Scrum ways of working.	Medium	High	Daily stand-up and sprint ceremonies	R for Agile process
UI/UX Designer	Design and wireframe owner	Creates or reviews page layout, navigation, responsive behaviour, form layout, and user journey design.	Medium	Medium	Wireframe review and design clarification	R for design artefacts
Website Developer	Build owner	Builds website pages, forms, email notifications, responsiveness, and agreed front-end behaviour.	High	Medium	Sprint planning, refinement, and technical clarification	R for development tasks
QA Tester	Testing owner	Prepares and runs test cases for pages, forms, mobile responsiveness, validation, email notification, and release checks.	Medium	Medium	Test review and defect discussion	R for testing and QA evidence
Compliance / Legal Advisor, if available	Compliance reviewer	Reviews privacy, cookies, company information, newsletter consent, legal pages, and customer-facing claims before release.	High	Low	Compliance review before UAT or release	C for compliance wording and risk confirmation
Hosting / Domain Support	Technical environment support	Supports domain, hosting, SSL certificate, deployment access, and go-live environment readiness if required.	Medium	Low	As needed during release preparation	C for hosting and deployment support

3. Communication Approach

Communication Area	Main Participants
Discovery and clarification	Business Analyst with Business Owner, Sales / Enquiry Handling Team, Content Owner
Sprint planning and priority	Product Owner, Scrum Master, Business Analyst, Delivery Team
Design review	Business Analyst, Product Owner, UI/UX Designer, Business Owner
Testing and UAT	Business Analyst, QA Tester, Product Owner, Business Owner
Compliance review	Business Owner with Compliance / Legal Advisor, if available

4. Compliance Ownership Note

The Business Analyst will capture compliance-related requirements and open questions, but the final wording and approval for legal or regulatory content must come from the business owner or relevant advisor. This includes privacy notice, cookie notice, newsletter consent, company information, delivery / returns wording, and customer-facing claims.

5. Assumptions

- The Business Owner will act as the main decision maker for business scope.
- The Sales / Enquiry Handling Team will explain the current enquiry process and confirm form data needs.
- The Content Owner will provide approved website content before design and development finalisation.
- Compliance wording will be confirmed by the Business Owner or relevant advisor before release.
- Phase 2 SQL and Power BI stakeholders will be confirmed later when reporting requirements are started.

6. Next Step

Use this Stakeholder Register to prepare the RACI Matrix and Discovery Questions for Sprint 0. Stakeholder details should be reviewed during discovery and updated if new roles are identified.
