

Acceptance Criteria Document

Official Website and Customer Enquiry Management System for a UK Auto Parts SME

Field	Value
Client Name	Auto Parts SME
Prepared By	Business Analyst
Document Date	25 May 20xx
Sprint	Sprint 2 Product Categories and Enquiry Forms
Document Status	Draft for Product Owner and Business Owner Review
Confidentiality	Anonymised BA portfolio sample. No identifiable client information included.

1. Purpose

This document defines acceptance criteria for the Phase 1 website user stories. The acceptance criteria describe the conditions that must be met before a story can be accepted by the Product Owner or Business Owner.

2. Scope Covered

The criteria cover homepage, navigation, product categories, website forms, email notification, footer/legal links, responsive layout, content approval, and future Phase 2 reporting boundary.

3. Acceptance Criteria Format

Acceptance criteria are written using simple Given / When / Then format where useful. This makes the requirement testable for QA and understandable for business stakeholders.

4. Acceptance Criteria

4.1 Website Foundation Stories

Story ID	Story / Feature	Acceptance Criteria
US-01	View Homepage	Given a customer opens the website, when the homepage loads, then the customer can see the hero message, Request a Quote call-to-action, product category preview, trust/service section, and footer links.
US-02	Use Header Navigation	Given a customer is on any website page, when the customer uses the header menu, then About Us, Contact Us, Feedback, and Request a Quote options are visible and open the correct page or section.
US-03	View About Us Page	Given a customer selects About Us, when the page opens, then the customer can read business introduction content approved by the Business Owner.
US-04	Browse Product Categories	Given a customer views product categories, when the category section loads, then Body Parts, Lighting, Engines, Differential, Electrical, and Gearbox categories are shown with approved names and descriptions.
US-05	Access Footer and Legal Links	Given a customer reaches the footer, when the customer selects Privacy Policy, Cookie Policy, Terms and Conditions, or Delivery / Returns, then the correct page opens with business-approved wording.

4.2 Form and Enquiry Stories

Story ID	Story / Feature	Acceptance Criteria
US-06	Open Request a Quote Form	Given a customer selects Request a Quote, when the form opens, then required fields, optional fields, privacy note, and submit button are clearly visible.
US-07	Submit Request a Quote Form	Given the customer enters valid required details, when the customer submits the quote form, then the enquiry is accepted, a confirmation message is shown, and an email notification is sent to the business inbox.
US-08	Validate Request a Quote Form	Given a customer leaves a mandatory field blank or enters invalid format, when the customer submits the quote form, then clear error messages are shown and the enquiry is not submitted until valid details are provided.
US-09	Submit Contact Us Form	Given a customer enters valid contact details and message, when the Contact Us form is submitted, then a confirmation message is shown and the enquiry is sent to the business inbox.
US-10	Submit Feedback Form	Given a customer enters valid feedback details, when the Feedback form is submitted, then the feedback is submitted through the agreed Phase 1 method and a confirmation message is shown.
US-11	Subscribe to Newsletter	Given a customer enters a valid email address and gives clear consent, when the newsletter form is submitted, then the subscription request is accepted and a confirmation message is displayed.

4.3 Notification, Quality and Future Scope Stories

Story ID	Story / Feature	Acceptance Criteria
US-12	Receive Business Email Notification	Given any website enquiry form is successfully submitted, when the form submission is accepted, then the business receives an email notification containing the agreed form details.
US-13	Use Website on Mobile	Given a customer opens the website on a mobile device, when the website loads, then the layout, navigation, text, buttons, and forms remain readable and usable.
US-14	Validate Content and Claims	Given customer-facing content is displayed, when the page is reviewed before release, then claims such as free shipping, secure payment, money back, discount, or support availability are shown only if confirmed by the Business Owner.
US-15	Future Reporting Placeholder	Given Phase 2 is not part of Phase 1, when enquiry data and reporting needs are discussed, then SQL and Power BI dashboard requirements remain documented as future enhancement only.

5. Definition of Done Notes

- Acceptance criteria are reviewed by Product Owner or Business Owner before story closure.
- Required form fields and validation rules match the Data Field List.
- Customer-facing content and claims are confirmed before publishing.
- Privacy, cookie, newsletter, and legal page requirements are tracked from BA perspective.
- Responsive layout and basic accessibility checks are included before User Acceptance Testing (UAT).
- Phase 2 SQL and Power BI items are not delivered in Phase 1.

6. Compliance and Approval Notes

This document captures BA-level acceptance conditions only. It does not provide legal advice. Final wording for privacy notice, cookie notice, newsletter consent, Terms and Conditions, Delivery / Returns information, and customer-facing claims should be confirmed by the Business Owner or relevant advisor before go-live.

7. Traceability

Source Document	Traceability Use
BRD	Business objectives, Phase 1 scope, out-of-scope boundaries, success criteria
FRD	Functional behaviour for pages, forms, navigation, confirmation messages, and email notification
NFR	Responsive design, accessibility basics, performance, browser compatibility, and security basics
Business Rules	Scope boundaries, validation rules, claim approval, and UAT sign-off requirements
Data Field List	Field names, mandatory status, data types, validation rules, and future reporting relevance
Use Case Document	Main flows, alternate flows, pre-conditions, post-conditions, and business rules

8. Portfolio Evidence Note

This document can be used as anonymised BA portfolio evidence. All identifiable client details must be removed or replaced with Auto Parts SME before publishing on a portfolio website.
