

Content Requirement Checklist

Official Website and Customer Enquiry Management System for a UK Auto Parts SME

Client Name	Auto Parts SME
Prepared By	Business Analyst
Sprint	Sprint 1 Website Foundation
Working Date	20 May 20xx
Document Status	Draft for Product Owner and Business Owner review

1. Purpose

This Content Requirement Checklist defines the website content needed for Phase 1 of the Auto Parts SME website project. It supports homepage, navigation, footer, legal page, product category, contact, feedback, quote request, newsletter, accessibility, and Search Engine Optimisation (SEO) content preparation.

2. Scope of Content Review

- Confirm what content is required for each Phase 1 website page and section.
- Identify content owner and approval responsibility.
- Record whether content is drafted, pending, approved, or not required.
- Track customer-facing claims that require business confirmation before publication.
- Keep Phase 2 SQL and Power BI reporting content out of Phase 1 website delivery.

3. Content Requirement Checklist

Area	Content required	Owner	Status	BA note
Header / Navigation	Logo placeholder, Home, About Us, Product Categories, Contact Us, Feedback, Request a Quote button	Business Owner / UI UX Designer	Pending review	No real client logo or identifiable client detail should be used in portfolio evidence.
Homepage Hero Section	Short business introduction, auto parts value statement, main call-to-action button	Business Owner / Content Owner	Draft required	Avoid unsupported claims such as lowest price, 24/7 support, or guaranteed availability.
Trust / Service Cards	Free shipping, support, money-back wording, secure payment wording, if	Business Owner	Needs confirmation	Claims must be removed or reworded if not confirmed by the business.

	applicable			
Product Categories	Body parts, lighting, engines, differential, electrical, gearbox, and other agreed categories	Sales / Enquiry Handling Team	Pending category confirmation	Categories should match what the business can realistically source or discuss.
About Us Page	Company background, business experience, customer service approach, general service area	Business Owner / Content Owner	Draft required	Do not include identifiable real address, phone, email, or client-specific details in portfolio evidence.
Request a Quote Form	Intro text explaining customer can request a quote for required part	Business Analyst / Business Owner	Requirement drafted	Form fields will be covered in the Data Field List in Sprint 2.
Contact Us Page	General contact instruction, enquiry guidance, expected response wording	Business Owner / Content Owner	Draft required	Use anonymised placeholders for portfolio evidence.
Feedback Form	Short instruction asking customers to provide feedback about enquiry or service experience	Business Owner	Draft required	Feedback form should not ask for unnecessary personal data.
Newsletter Section	Subscription prompt, consent wording, unsubscribe note	Business Owner / Compliance Advisor	Needs confirmation	Newsletter wording must support clear consent and unsubscribe handling.
Footer Links	Customer service links, company links, legal links, newsletter area	Business Analyst / UI UX Designer	Drafted for review	Footer must include Privacy Policy, Cookie Policy, Terms and Conditions, and Delivery / Returns links.
Privacy Policy Page	Privacy notice content covering contact, quote, feedback, and newsletter data	Business Owner / Relevant Advisor	Not drafted by BA	BA tracks requirement only; final wording to be confirmed by business or advisor.
Cookie Policy	Cookie notice	Business Owner /	Needs	Confirm whether

Page	content if analytics or non-essential cookies are used	Relevant Advisor	confirmation	analytics cookies are in scope for Phase 1.
Terms and Conditions Page	Business terms and website use wording	Business Owner / Relevant Advisor	Not drafted by BA	BA should not provide legal wording.
Delivery / Returns Page	Delivery, returns, refund, and cancellation information if relevant	Business Owner / Relevant Advisor	Needs confirmation	Online payment and checkout are out of scope in Phase 1.
SEO Content	Page titles, meta descriptions, heading structure, alt text guidance	Business Analyst / Content Owner	Draft required	SEO means Search Engine Optimisation. Keep wording simple and relevant.
Accessibility Content	Alt text for images, readable labels, clear error messages, descriptive button text	Business Analyst / UI UX Designer	Requirement drafted	Support readable and usable content on desktop and mobile.

4. Claim Validation Checklist

Customer-facing claims must be confirmed by the Business Owner before they are used on the live website. The BA should record the requirement and track the approval status, but should not approve commercial or legal wording independently.

Claim / wording	BA action	Approval owner	Decision needed
Free shipping	Confirm whether free shipping is true and whether conditions apply.	Business Owner	Approve wording, add conditions, or remove.
Secure payment	Do not use in Phase 1 if online payment is out of scope.	Business Owner	Remove or replace with safe wording.
Money back	Confirm whether a money-back policy exists.	Business Owner / Relevant Advisor	Approve with terms or remove.
Discount wording	Confirm offer value, eligibility, and expiry.	Business Owner	Approve or remove.
24/7 support	Confirm whether support is actually available 24/7.	Business Owner	Approve or replace with realistic response wording.

5. Content Approval Workflow

- Business Analyst prepares checklist and identifies missing or unclear content.
- Content Owner drafts business-facing website content.
- Business Owner reviews and approves commercial claims and company wording.
- Relevant advisor confirms legal, privacy, cookie, delivery, returns, and terms wording where required.
- UI/UX Designer applies approved content into Figma wireframes and page layouts.
- BA reviews final content placement against BRD, FRD, NFR, sitemap, and business rules.

6. Assumptions

- Phase 1 website will not include online payment, checkout, customer login, live inventory, or customer dashboard.
- Final legal and compliance wording will be confirmed by the Business Owner or relevant advisor.
- The website content will be simple and realistic for a small UK auto parts business.
- Images, logo, contact details, and any identifiable client information will be anonymised in portfolio evidence.

7. Risks and Mitigation

Risk	Impact	Mitigation
Content approval delay	May delay Figma updates and development readiness.	Agree content owner and approval deadline early.
Unverified customer-facing claims	May create trust or compliance issue.	Track claim validation and remove unapproved wording.
Missing legal page content	May delay release readiness.	Record legal page requirement and confirm owner.
Incomplete product category content	May affect homepage and product section design.	Confirm category list with Sales / Enquiry Handling Team.

8. Next Step

Use this checklist during Sprint 1 content and wireframe review. Any missing, unclear, or unapproved content should be tracked before development and testing proceed. Detailed form fields will be documented in the Data Field List during Sprint 2.

9. Portfolio Confidentiality Note

This document is prepared as anonymised BA portfolio evidence. Real client name, real website domain, real logo, address, phone number, email, and identifiable business details must not be included.
