

Functional Requirements Document (FRD)

Official Website and Customer Enquiry Management System for a UK Auto Parts SME

Client Name	Auto Parts SME
Document Type	Functional Requirements Document
Prepared By	Business Analyst
Sprint	Sprint 1 Website Foundation
Working Date	19 May 2xx
Version	v1.0
Confidentiality Note	Anonymised BA portfolio sample. All identifiable client details have been removed or replaced.

1. Purpose

The purpose of this Functional Requirements Document is to define what the Phase 1 website should do from a business and user perspective. It converts the Business Requirements Document, sitemap, process flows, and discovery notes into clear functional requirements for design, development, testing, and User Acceptance Testing (UAT).

2. Source Documents

- Project Intake Note
- Discovery Questions
- Discovery Meeting Notes
- Current Customer Enquiry Process Note
- As-Is Process Flow
- To-Be Process Flow
- Initial Website Sitemap
- Initial Product Backlog
- Business Requirements Document (BRD)
- Non-Functional Requirement (NFR) Document

3. Phase 1 Functional Scope

Phase 1 focuses on a simple official website with customer enquiry and quote request capability. It does not include customer login, online payment, checkout, live inventory, mobile app, complex admin portal, API integration, SQL dashboard, or Power BI dashboard.

Area	Included in Phase 1	Notes
Website pages	Home, About Us, Product Categories, Request a Quote, Contact Us, Feedback, legal/footer pages	Main public website scope
Customer forms	Quote request, contact, feedback, newsletter subscription	Data fields to be confirmed by business owner

Notifications	Email notification to business for submitted enquiries	No full CRM or lead dashboard in Phase 1
Compliance pages	Privacy Policy, Cookie Policy, Terms and Conditions, Delivery / Returns information	Final wording to be confirmed by business owner or relevant advisor
Future enhancement	Phase 2 SQL and Power BI dashboard placeholder only	No Phase 2 build in this sprint

4. User Roles

Role	Description	Main interaction
Website Visitor / Customer	A public user visiting the website to view company information or submit an enquiry.	Browse pages, submit forms, subscribe to updates
Business Owner	Approves business scope, content, compliance wording, and release readiness.	Review requirements and approve customer-facing content
Sales / Enquiry Handling Team	Reviews quote requests and follows up with customers manually.	Receive email notifications and respond to enquiries
Content Owner	Provides approved text, product category wording, and business information.	Review website content and footer information
Website Developer	Builds the website based on requirements and design.	Implement pages, forms, validation, email notification
QA Tester	Tests website behaviour against agreed requirements.	Execute test scenarios and report issues

5. Functional Requirements

The table below lists the functional requirements for Phase 1. Priority uses Must, Should, or Could. Must items are required for the Minimum Viable Product (MVP).

ID	Area	Functional requirement	Priority	Owner / reviewer	Acceptance note
FR-001	Header and navigation	The website shall display a header with anonymised logo area, Home, About Us, Contact Us, Feedback, and Request a Quote navigation.	Must	Business Owner / BA	Navigation links are visible and route to the correct sections or pages.
FR-002	Header and navigation	The Request a Quote call-to-action shall be clearly visible from the header.	Must	Business Owner / UI/UX	Button is visible on desktop and mobile views.
FR-003	Home page	The website shall display a homepage hero section with business introduction and quote request call-to-action.	Must	Business Owner / Content Owner	Hero content is approved and no unconfirmed claims are used.
FR-004	Home page	The homepage shall display service or trust cards only after the business confirms the	Should	Business Owner	Claims such as free shipping, money back, secure

		wording.			payment, or support availability are approved or removed.
FR-005	About Us	The About Us page shall display approved business profile, service summary, and customer value message.	Must	Business Owner / Content Owner	Content is approved before release.
FR-006	Product categories	The website shall display product / featured categories such as body parts, lighting, engines, differential, electrical, and gearbox.	Must	Business Owner / Sales Team	Categories match business approved category list.
FR-007	Product categories	Each category card shall show category name and short description or visual placeholder.	Should	UI/UX / Content Owner	Card content is readable and consistent.
FR-008	Request a Quote form	The website shall provide a Request a Quote form for customers to submit auto parts enquiries.	Must	BA / Sales Team	Form is reachable from header, homepage, and relevant sections.
FR-009	Request a Quote form	The Request a Quote form shall capture customer name, email, phone number, product category, vehicle details, part details, preferred contact method, and message.	Must	Sales Team / BA	Required fields and optional fields are agreed with Sales Team.
FR-010	Form validation	The website shall validate mandatory fields before form submission.	Must	Developer / QA	Missing required fields show clear error messages.
FR-011	Form validation	The website shall show customer-friendly error messages for missing or invalid data.	Must	BA / QA	Error message tells the user what needs correction.
FR-012	Form submission	After successful quote submission, the website shall show a confirmation message to the customer.	Must	Developer / QA	Customer can see that enquiry was submitted.
FR-013	Email notification	After successful quote submission, the website shall send an email notification to the business email inbox.	Must	Developer / Business Owner	Email contains submitted enquiry details.
FR-014	Contact Us	The website shall provide a Contact Us page with contact form and approved business contact guidance.	Must	Business Owner / BA	No real contact details are used in portfolio evidence.
FR-015	Contact form	The Contact Us form shall capture name, email, phone, subject, and message.	Must	BA / Business Owner	Form fields are visible and validated.
FR-	Feedback	The website shall provide a	Should	Business	Feedback form

016	form	feedback form for customers to submit comments or service feedback.		Owner / BA	includes required fields and confirmation message.
FR-017	Newsletter	The website shall provide newsletter subscription with email address field and clear consent wording.	Should	Business Owner / Content Owner	Consent wording is approved before release.
FR-018	Newsletter	Newsletter subscription shall include unsubscribe information or a requirement for unsubscribe handling.	Must	Business Owner	Unsubscribe requirement is captured and confirmed.
FR-019	Footer	The website shall display footer links for customer service, company pages, legal pages, and newsletter subscription.	Must	UI/UX / BA	Footer links are visible and route to correct pages.
FR-020	Privacy Policy	The website shall include a Privacy Policy page linked from the footer.	Must	Business Owner / Advisor	Final wording is confirmed by business owner or relevant advisor.
FR-021	Cookie Policy	The website shall include a Cookie Policy page linked from the footer.	Must	Business Owner / Advisor	Cookie wording reflects agreed analytics or tracking use.
FR-022	Terms and Conditions	The website shall include a Terms and Conditions page linked from the footer.	Should	Business Owner / Advisor	Content is approved before release.
FR-023	Delivery / Returns	The website shall include a Delivery / Returns information page for customer information.	Should	Business Owner / Advisor	Wording is reviewed, especially if online selling is added in future.
FR-024	Responsive behaviour	The website shall allow users to access pages and forms on desktop, tablet, and mobile.	Must	Developer / QA	Layouts are checked during testing and UAT.
FR-025	Basic SEO	The website shall support basic Search Engine Optimisation fields such as page title, meta description, and meaningful heading text.	Should	Developer / Content Owner	Core pages have basic SEO content.
FR-026	Basic analytics	The website shall support basic analytics only if agreed by the business owner.	Could	Business Owner / Developer	Analytics use is confirmed and cookie impact is reviewed.
FR-027	Accessibility basics	The website shall support basic accessibility behaviours such as form labels, alt text, readable text, and keyboard-friendly navigation.	Must	BA / UI/UX / QA	Accessibility checks are included in testing.
FR-	Customer-	The website shall display	Must	Business	Unconfirmed claims

028	facing claims	customer-facing claims only after business approval.		Owner	are removed or reworded.
FR-029	Out-of-scope control	The website shall not include login, payment, checkout, live inventory, complex admin portal, API integration, SQL dashboard, or Power BI dashboard in Phase 1.	Must	Product Owner / BA	Out-of-scope items are not added to Sprint 1 to Sprint 3 delivery.
FR-030	Phase 2 placeholder	The backlog shall capture Phase 2 SQL and Power BI dashboard as future enhancement only.	Could	BA / Product Owner	Future item is recorded but not delivered in Phase 1.

6. Form Field Summary

Form	Field	Type	Required?	Notes
Request a Quote	Customer name	Text	Yes	Needed for enquiry follow-up
Request a Quote	Email address	Email	Yes	Used for response and confirmation if enabled
Request a Quote	Phone number	Phone	Should	Useful for fast follow-up
Request a Quote	Product category	Dropdown	Yes	Examples: body parts, lighting, engines, differential, electrical, gearbox
Request a Quote	Vehicle details	Text	Should	Make, model, year, registration or other agreed detail

7. Functional Assumptions

- Business Owner will provide approved business content and legal page wording.
- Sales / Enquiry Handling Team will confirm the final quote form fields.
- No online payment, customer login, checkout, live inventory, or customer dashboard will be delivered in Phase 1.
- Email notification will be used for enquiry handling in Phase 1.
- Phase 2 SQL and Power BI reporting will be considered only after website go-live.

8. Dependencies

- Approved website content from Business Owner / Content Owner.
- Confirmed product category list from Business Owner or Sales Team.
- Confirmed form fields from Sales / Enquiry Handling Team.
- Confirmed legal and compliance wording from Business Owner or relevant advisor.
- Figma wireframes to be reviewed against this FRD before development.

9. Requirements Traceability Note

The functional requirements in this document will be used to create user stories, acceptance criteria, wireframe review notes, test scenarios, and User Acceptance Testing evidence. Any change to Phase 1 scope should be reviewed by the Product Owner before adding to the backlog.

10. Approval Note

Role	Name / role label	Approval status	Date
Business Owner	Business Owner	Pending review	
Product Owner	Product Owner	Pending review
