

Request a Quote Form Requirements

Official Website and Customer Enquiry Management System for a UK Auto Parts SME

Field	Value
Client Name	Auto Parts SME
Prepared By	Business Analyst
Working Date	21 May 20xx
Sprint	Sprint 2 - Product Categories and Enquiry Forms
Document Version	v1.0

1. Purpose

This document defines the requirements for the Request a Quote form on the Auto Parts SME website. The form will allow customers to submit structured product enquiries through the website so the business team can review the details and respond manually.

2. Scope

In Scope	Out of Scope
Request a Quote form fields and labels	Online payment gateway
Required and optional field rules	Full e-commerce checkout
Form validation and error messages	Live inventory management
Confirmation message after submission	Customer login or account dashboard
Email notification to the business	SQL database and Power BI dashboard in Phase 1
Privacy notice link near the form	Advanced product recommendation engine

3. User Need

As a customer, I want to submit product and vehicle details through a Request a Quote form so that the business can review my enquiry and contact me with availability, quote, or request for more details.

4. Form Field Requirements

Field	Type	Required	Requirement	Validation / Notes
Customer Name	Text	Yes	Customer enters full name.	Must not be blank.
Email Address	Email	Yes	Customer enters email address.	Must follow valid email format.
Phone Number	Text / telephone	Yes	Customer enters contact number.	Must not be blank. Basic phone format check recommended.
Product Category	Dropdown	Yes	Customer selects category such as Body Parts, Lighting, Engines, Differential, Electrical, or Gearbox.	Must select one option.
Vehicle Details	Text area	Recommended	Customer enters make, model, year, registration if they choose, or relevant vehicle details.	Show guidance text. Do not force sensitive or unnecessary details.
Part Details / Description	Text area	Yes	Customer describes the required part.	Must not be blank.

Preferred Contact Method	Dropdown or radio button	Optional	Customer selects phone or email.	Optional in Phase 1.
Message / Notes	Text area	Optional	Customer adds extra information.	Optional.
Newsletter Consent	Checkbox	Optional	Customer opts in to receive updates.	Must not be pre-selected if used.
Privacy Notice Acknowledgement	Text/link	Yes	Display privacy note and link near the submit button.	Customer should be able to access privacy information before submission.

5. Functional Behaviour

ID	Functional Requirement
RQ-FR-01	The Request a Quote button should be visible from the header and relevant product/category sections.
RQ-FR-02	Customer should be able to open the Request a Quote form from the homepage and product category sections.
RQ-FR-03	The form should validate required fields before submission.
RQ-FR-04	If required fields are missing or invalid, the website should show clear error messages near the relevant fields.
RQ-FR-05	If the form is submitted successfully, the customer should see a confirmation message.
RQ-FR-06	After successful submission, an email notification should be sent to the business inbox with submitted enquiry details.
RQ-FR-07	The form should not collect payment, create an account, or confirm product availability automatically in Phase 1.
RQ-FR-08	The business team will review enquiries manually and contact the customer outside the website workflow in Phase 1.

6. Error and Confirmation Message Requirements

Scenario	Suggested Message
Missing customer name	Please enter your name.
Invalid email address	Please enter a valid email address.
Missing phone number	Please enter your phone number.
No product category selected	Please select a product category.
Missing part description	Please describe the part you are looking for.
Successful submission	Thank you. Your quote request has been submitted. The business team will review your enquiry and contact you.
Submission failure	Sorry, your request could not be submitted. Please try again or contact the business using the Contact Us page.

7. Email Notification Requirement

The business should receive an email notification when a customer submits the Request a Quote form successfully. The email should include the submitted fields, submission date/time, and source page if available. The email should not include unnecessary personal data beyond what the customer submitted for enquiry handling.

8. Business Rules

- Quote form submission does not confirm product availability.
- Quote form submission does not confirm price.
- Quote form submission does not reserve any product.
- Online payment and checkout are out of scope for Phase 1.
- Newsletter consent must be separate from quote submission if newsletter sign-up is included.
- Customer-facing claims must be approved by the Business Owner before publishing.

9. Regulation and Compliance Consideration

The Request a Quote form collects personal data such as customer name, email, phone number, vehicle details, and enquiry message. From a BA perspective, the requirement is to provide clear privacy information near the form and confirm final wording with the Business Owner or relevant advisor. This document does not provide legal advice.

10. Non-Functional Considerations

- The form should work on desktop, tablet, and mobile screens.
- Required fields should have clear labels.
- Error messages should be readable and close to the related fields.
- The submit button should be easy to identify.
- The form should support keyboard navigation where practical.
- The form should not expose submitted details publicly.
- The form should show a clear loading or confirmation state after submission.

11. Acceptance Criteria

ID	Acceptance Criteria
AC-01	Given the customer opens the Request a Quote form, when the form loads, then all required fields should be clearly visible.
AC-02	Given the customer submits the form without required fields, when validation runs, then clear error messages should be shown.
AC-03	Given the customer enters a wrong email format, when submitting the form, then the website should show an email validation message.
AC-04	Given all required fields are completed, when the customer submits the form, then the enquiry should be accepted and a confirmation message should be displayed.
AC-05	Given the enquiry is submitted successfully, when the submission is complete, then the business should receive an email notification.
AC-06	Given the customer submits a quote request, when the form is submitted, then the website should not show price confirmation, payment option, stock confirmation, or account creation.
AC-07	Given the form is shown to the customer, when they review the page, then a privacy notice link or privacy information should be available near the form.

12. Assumptions

- Business Owner will confirm final product category names.
- Business Owner will confirm business email address for notifications outside this document.

- Final privacy wording will be confirmed by the Business Owner or relevant advisor.
- No online payment, checkout, login, live inventory, SQL dashboard, or Power BI dashboard in Phase 1.

13. Open Questions

ID	Open Question	Owner
OQ-01	Should Vehicle Details be required or recommended?	Business Owner / Sales Team
OQ-02	Which inbox should receive quote notifications?	Business Owner
OQ-03	Should preferred contact method be included?	Product Owner
OQ-04	Should newsletter consent appear in the quote form or footer only?	Business Owner / Product Owner

14. Portfolio Evidence Note

This document can be saved as anonymised BA portfolio evidence. All identifiable client details, including real company name, website domain, logo, address, phone number, email, and internal business information, should be removed or replaced with Auto Parts SME.
