

Figma Wireframe Review Notes

Official Website and Customer Enquiry Management System for a UK Auto Parts SME

Client Name	Auto Parts SME
Project Name	Official Website and Customer Enquiry Management System for a UK Auto Parts SME
Document Type	Figma Wireframe Review Notes
Prepared By	Business Analyst
Sprint	Sprint 1 Website Foundation
Working Date	20 May 20xx
Working Time	09:30 AM to 11:30 AM
Version	v1.0

1. Purpose

The purpose of this document is to record the Business Analyst review of the Figma wireframes for the Auto Parts SME website. The review checks whether the wireframes are aligned with the Business Requirements Document, Functional Requirements Document, Non-Functional Requirement document, Business Rules Document, sitemap, and Sprint 1 page requirements.

This document is written from a BA perspective. The UI/UX Designer owns the visual design, while the Business Analyst reviews whether the wireframes support confirmed requirements, customer journey, form behaviour, content needs, compliance prompts, and release readiness.

2. Review Scope

- Homepage layout, hero banner, and Request a Quote call-to-action.
- Header navigation including About Us, Contact Us, Feedback, and Request a Quote button.
- Product or featured category section for auto parts categories.
- Trust/service card section, subject to business confirmation of wording.
- About Us page layout and content placement.
- Footer layout, customer service links, legal links, newsletter section, and company information area.
- Mobile responsive layout review from a requirement perspective.

3. Source Documents Reviewed

Source document	Review purpose
Project Intake Note	Initial business problem, Phase 1 scope, out-of-scope items, and compliance areas.
BRD	Business objectives, scope, stakeholders, assumptions, risks, and success criteria.
FRD	Functional behaviour expected from pages, forms, navigation, and email notifications.
NFR Document	Responsive design, accessibility basics,

	performance, browser compatibility, and security basics.
Business Rules Document	Rules for form validation, content approval, customer-facing claims, and Phase 1 boundaries.
Initial Website Sitemap	Website page structure and footer/legal page requirements.
Homepage Navigation Footer and Legal Page Requirements	Page-level requirements for Sprint 1 website foundation.

4. Screens / Wireframes Reviewed

Screen / area	Review focus
Home Page	Hero section, navigation, Request a Quote call-to-action, category preview, trust/service content, and footer.
About Us Page	Business introduction, trust message, and content placement.
Product Categories Section	Body parts, lighting, engines, differential, electrical, gearbox, and future category flexibility.
Footer / Legal Area	Customer service links, legal links, newsletter, and business information area.
Mobile View	Responsive layout, menu behaviour, readable text, and form accessibility basics.

5. BA Review Summary

Area reviewed	Review status	BA comment
Header navigation	Partially aligned	Header includes key navigation items. Confirm final order and button wording with Product Owner.
Hero section	Aligned	Hero supports business purpose and includes Request a Quote call-to-action.
Product categories	Aligned with note	Categories are visible. Business Owner must confirm final category list and wording.
Trust/service cards	Needs confirmation	Claims such as free shipping, support, secure payment, money back, or discount must be approved before release.
Footer links	Partially aligned	Footer should include Privacy Policy, Cookie Policy, Terms and Conditions, Delivery / Returns, Contact Us, and Newsletter links.
Newsletter section	Needs update	Consent wording and unsubscribe expectation should

		be clear.
Mobile responsiveness	Needs review	Mobile wireframe should be checked for readable text, clickable buttons, and menu usability.
Accessibility basics	Needs review	Wireframes should support readable contrast, clear labels, alt text need, keyboard navigation, and visible error messages.

6. Detailed BA Review Comments

ID	Screen / area	Review comment	Owner	Status
WR-01	Homepage	Request a Quote call-to-action should be visible above the fold on desktop and easy to access on mobile.	UI/UX Designer	Open
WR-02	Header	Header navigation should include About Us, Contact Us, Feedback, and Request a Quote. The Request a Quote button should remain visually distinct.	UI/UX Designer	Open
WR-03	Product Categories	Final category names must be confirmed by Business Owner before development content is locked.	Business Owner	Open
WR-04	Trust/service cards	Claims like free shipping, secure payment, money back, discount, or 24/7 support must not be displayed unless confirmed by Business Owner.	Business Owner	Open
WR-05	Footer	Footer must include legal and customer	UI/UX Designer	Open

		information links including Privacy Policy, Cookie Policy, Terms and Conditions, and Delivery / Returns.		
WR-06	Newsletter	Newsletter area should include consent wording. Unsubscribe handling should be confirmed as a requirement.	Business Analyst	Open
WR-07	Mobile view	Mobile wireframe should show menu behaviour, readable labels, visible buttons, and easy access to Request a Quote.	UI/UX Designer	Open
WR-08	Forms	Future form wireframes should clearly show required fields, optional fields, validation message area, and confirmation message area.	Business Analyst / UI/UX Designer	Open

7. Compliance and Accessibility Review Points

Area	BA review point
Privacy	Wireframe should provide clear route to Privacy Policy from footer and form areas where needed.
Cookies	Cookie notice / preferences should be considered if analytics or non-essential cookies are used.
Newsletter	Consent wording should be visible near the subscription area. Unsubscribe option should be captured as a requirement.
Company information	Footer or legal area should allow required company details to be added if applicable.
Customer-facing claims	Claims should be removed or kept as placeholders until Business Owner confirms accuracy.
Accessibility basics	Design should support readable contrast, form labels, alt text need, keyboard navigation, clear error messages, and mobile usability.

8. Decisions and Actions

Action	Owner	Target
Confirm product category names	Business Owner	Before Sprint 1 design sign-off
Confirm customer-facing claims	Business Owner	Before final content approval
Update footer links in wireframe	UI/UX Designer	Before Sprint 1 wireframe sign-off
Review mobile wireframe	Business Analyst / UI/UX Designer	Before Sprint 1 review completion
Confirm newsletter consent wording requirement	Business Analyst / Product Owner	Before Sprint 2 forms work

9. Review Outcome

The wireframe review is acceptable to continue with Sprint 1 refinement, subject to the open comments being addressed. The main areas requiring confirmation are product category wording, customer-facing claims, footer/legal links, newsletter consent wording, and mobile layout review.

The Business Analyst will use these review notes as input for user stories, acceptance criteria, content checklist, and future test scenarios.

10. Portfolio Evidence Note

This document can be used as anonymised BA portfolio evidence. No real client name, real website domain, real logo, real address, real phone number, real email, or identifiable business detail should be included. Use Auto Parts SME only.
