

Initial Website Sitemap

Official Website and Customer Enquiry Management System for a UK Auto Parts SME

Field	Details
Project Name	Official Website and Customer Enquiry Management System for a UK Auto Parts SME
Client Name	Auto Parts SME
Document Type	Initial Website Sitemap
Prepared By	Business Analyst
Sprint	Sprint 0 Discovery Initiation
Working Date	15 May 20xx
Version	v1.0

1. Purpose

This document captures the initial website sitemap for Auto Parts SME. It defines the proposed page structure for Phase 1 and provides a clear input for wireframe review, content planning, backlog preparation, and basic Search Engine Optimisation (SEO).

2. Sitemap Scope

The sitemap covers the Phase 1 website scope only. It includes main website pages, enquiry forms, customer service links, legal information pages, newsletter subscription, and footer content. Customer login, online payment, live inventory, complex admin portal, SQL database, and Power BI dashboard are not included in Phase 1.

3. High-Level Website Structure

Website Area	Purpose
Home Page	Entry point for customers. Includes hero banner, Request a Quote call-to-action, trust/service cards, featured categories, promotional banner, and footer.
About Us	Explains business background, service approach, parts support, and general company information.
Product / Featured Categories	Shows key auto parts categories such as body parts, lighting, engines, differential, electrical, and gearbox.
Request a Quote	Allows customers to submit quote requests with contact, vehicle, and part requirement details.
Contact Us	Allows customers to contact the business for general enquiries.
Feedback	Allows customers to submit feedback about service or enquiry experience.
Newsletter Subscription	Allows customers to subscribe to updates, subject to consent and unsubscribe requirements.
Footer and Customer Service Links	Provides access to company links, customer service pages, legal pages, and key information.
Legal and Information Pages	Includes Privacy Policy, Cookie Policy, Terms and Conditions, and Delivery / Returns information.

4. Visual Website Sitemap

Initial Website Sitemap

Official Website and Customer Enquiry Management System for a UK Auto Parts SME

BA Note

Phase 1 sitemap focuses on official website pages, enquiry forms, footer/legal content, mobile responsive navigation, basic SEO and email notification. Customer login, checkout, live inventory, complex admin portal, SQL and Power BI dashboard remain out of scope for Phase 1.

Figure 1: Initial Website Sitemap

5. Page-Level Notes

Page / Area	BA Note
Home Page	Must provide clear first impression, visible Request a Quote action, and quick access to categories.
Product Categories	Categories must be easy to scan. Detailed inventory and live stock are out of scope for Phase 1.
Request a Quote	Form fields must be confirmed with the Sales / Enquiry Handling Team. Required field validation must be included.
Contact and Feedback	Forms should collect only required information and show confirmation after submission.
Footer Links	Footer should include customer service, company, legal, and newsletter links.
Legal Pages	Content to be confirmed by Business Owner or relevant advisor before go-live.

6. Regulation and Compliance Consideration

- Privacy notice is required because contact, quote, feedback, and newsletter forms may collect personal data.
- Cookie notice and cookie preference requirement must be confirmed if analytics or non-essential cookies are used.
- Newsletter subscription must include clear consent and unsubscribe handling.
- Company information, Terms and Conditions, and Delivery / Returns wording must be confirmed by the Business Owner or relevant advisor.
- Claims such as free shipping, secure payment, money back, discount, or support availability must be confirmed by the business before appearing on the website.
- Basic accessibility expectations should include readable text, clear labels, keyboard access, alt text, validation messages, and mobile-friendly layout.

7. SQL / Power BI Note

No SQL or Power BI work is included in this sitemap. Phase 2 may later use enquiry and quote request data for a Customer Enquiry and Sales Lead Tracking Dashboard, but Phase 1 only captures the website page structure and enquiry journey.

8. Assumptions

- The business will confirm final product categories before design completion.
- The business will provide or approve website content.
- Legal page wording will be confirmed before go-live.
- Phase 1 will use email notification for submitted forms, not a complex admin portal.

9. Next Step

Use this sitemap as input for the Initial Product Backlog and Sprint 1 planning. It will also support wireframe review and content requirement planning.
