

User Acceptance Testing (UAT) Plan

Official Website and Customer Enquiry Management System for a UK Auto Parts SME

Client Name	Auto Parts SME
Prepared By	Business Analyst
Document Date	26 May 20xx
Sprint	Sprint 3 Testing UAT Release Readiness
Document Version	v1.0
Document Purpose	To define the UAT approach, scope, participants, entry criteria, exit criteria, test areas, evidence, and sign-off approach for Phase 1 website MVP.

1. Purpose

The purpose of this User Acceptance Testing (UAT) Plan is to define how Auto Parts SME will validate the Phase 1 website MVP before release. UAT confirms whether the website supports the agreed business requirements, user stories, acceptance criteria, form behaviour, content needs, and release readiness expectations.

2. UAT Objectives

- Confirm that customers can access key website pages and understand the business offering.
- Confirm that product categories are visible and linked to the enquiry journey.
- Confirm that Request a Quote, Contact Us, Feedback, and Newsletter forms work as expected.
- Confirm that form validation, error messages, and confirmation messages are clear.
- Confirm that enquiry and contact submissions trigger email notification to the business.
- Confirm that legal/footer links and compliance-related content areas are available.
- Confirm that the website is ready for business sign-off and release readiness checks.

3. UAT Scope

Area	Included in UAT	Notes
Homepage and navigation	Yes	Header, hero area, call-to-action, and navigation behaviour.
About Us page	Yes	Business content should be present and approved by content owner.
Product categories	Yes	Body Parts, Lighting, Engines, Differential, Electrical, and Gearbox.
Request a Quote form	Yes	Field validation, submission, confirmation, and email notification.
Contact Us form	Yes	Valid and invalid submission scenarios.

Feedback form	Yes	Feedback submission and confirmation behaviour.
Newsletter subscription	Yes	Consent, validation, and confirmation message.
Legal/footer links	Yes	Privacy Policy, Cookie Policy, Terms and Conditions, Delivery / Returns.
Mobile responsiveness	Yes	Basic mobile and tablet usability check.
Online payment and checkout	No	Out of scope for Phase 1.
Customer login and dashboard	No	Out of scope for Phase 1.
SQL and Power BI dashboard	No	Future Phase 2 enhancement only.

4. UAT Participants and Responsibilities

Role	Responsibility	UAT Involvement
Business Owner	Confirm business acceptance and approve release readiness.	Accountable for final business sign-off.
Product Owner	Confirm that UAT scope aligns with agreed sprint scope.	Reviews UAT results and prioritises follow-ups.
Business Analyst	Prepare UAT plan, support UAT execution, record evidence, and track outcomes.	Coordinates UAT activity and requirement traceability.
Sales / Enquiry Handling Team	Validate enquiry forms and business follow-up needs.	Tests quote request, contact, and feedback journeys.
QA Tester	Complete system testing before UAT and support defect clarification.	Confirms QA readiness and supports retest if needed.
Developer	Support issue fixes or clarification if UAT observations are raised.	Available for technical support during UAT.

5. UAT Entry Criteria

- BRD, FRD, NFR, Business Rules, User Stories, and Acceptance Criteria are completed.
- QA testing is completed for the agreed Phase 1 scope.
- Critical form journeys are available in the test environment or staging website.
- Business users have access to the UAT environment.
- Test scenarios and UAT evidence log template are ready.
- Known out-of-scope items are clearly separated from UAT scope.
- Compliance wording pending final confirmation is clearly marked for business review.

6. UAT Exit Criteria

- All planned UAT scenarios are executed or formally deferred by the Product Owner or Business Owner.
- High priority UAT observations are resolved or accepted with a clear business decision.
- Request a Quote, Contact Us, Feedback, and Newsletter flows are accepted by business users.
- Footer and legal page links are checked and available.
- Email notification behaviour is accepted by the business.
- Business Owner or authorised approver provides UAT sign-off.
- Release Readiness Checklist can be started.

7. UAT Test Areas

UAT ID	Test Area	Business Validation Focus	Related Evidence
UAT-01	Homepage and navigation	Customer can understand business purpose and navigate to key pages.	BRD, FRD, sitemap, wireframe review
UAT-02	Product categories	Customer can view approved category names and move toward enquiry journey.	Product Category Requirements
UAT-03	Request a Quote form	Customer can submit valid enquiry and see confirmation message.	Quote Form Requirements, Data Field List
UAT-04	Quote form validation	Mandatory fields and invalid email checks work correctly.	Acceptance Criteria, NFR
UAT-05	Contact Us form	Customer can contact the business using agreed fields.	Contact Form Requirements
UAT-06	Feedback form	Customer can submit feedback and receive confirmation.	Feedback Requirements
UAT-07	Newsletter subscription	Customer can subscribe with clear consent and validation.	Newsletter Requirements
UAT-08	Email notification	Business receives email alert for submitted forms.	FRD, Business Rules
UAT-09	Footer and legal links	Legal and customer service links are available.	Legal Page Requirements
UAT-10	Mobile responsiveness	Website is usable on mobile and tablet screens.	NFR, Wireframe Review Notes
UAT-11	Accessibility basics	Labels, readable text, alt text, and error messages are clear.	NFR, Content Checklist
UAT-12	Content and claim approval	Claims are approved or removed before go-live.	Content Checklist, SEO Notes

8. UAT Schedule

Activity	Planned Date	Owner	Output
UAT Plan preparation	26 May 20xx	Business Analyst	UAT Plan completed
UAT briefing	27 May 20xx	BA / Product Owner	Business users understand scope and evidence approach
UAT execution	27 May 20xx to 28 May 20xx	Business users with BA support	UAT Evidence Log updated
UAT observation review	28 May 20xx	BA / Product Owner / QA / Developer	Open observations reviewed
UAT sign-off preparation	29 May 20xx	Business Analyst	UAT sign-off document prepared
Release readiness review	29 May 20xx	Product Owner / Business Owner / BA	Release Readiness Checklist started

9. Evidence to Capture During UAT

- Scenario ID and scenario name.
- Tester name or role.
- Date of test execution.
- Test result: Pass, Fail, Blocked, or Not Run.
- Screenshot or short note for important results.
- Observation details if actual result does not match expected result.
- Business decision if an observation is accepted or deferred.

10. Observation and Issue Handling

During UAT, the team should record observations clearly without creating unnecessary defects. Only items that affect agreed requirements, acceptance criteria, form behaviour, legal links, email notification, accessibility basics, or release readiness should be tracked for action.

- Business Analyst records the UAT observation and maps it to the related requirement or acceptance criteria.
- Product Owner confirms priority and whether the item must be fixed before release.
- Developer reviews technical fix effort if required.
- QA Tester supports retesting after fix, if applicable.
- Business Owner confirms acceptance or sign-off decision.

11. Compliance and Content Confirmation

The UAT activity should confirm that compliance-related areas are present and ready for business review. This is a BA requirement tracking activity and not legal advice.

- Privacy Policy link and privacy note near forms are present.

- Cookie Policy link is present and cookie notice requirement is confirmed if analytics or non-essential cookies are used.
- Newsletter consent is clear and not pre-selected.
- Unsubscribe requirement is recorded for newsletter communication.
- Terms and Conditions and Delivery / Returns links are present if included in footer.
- Customer-facing claims such as free shipping, secure payment, money back, discount, or support availability are approved by the business before go-live.

12. Assumptions and Risks

Type	Item	BA Note
Assumption	Business users will be available for UAT.	UAT schedule depends on business availability.
Assumption	Staging website will be available before UAT starts.	Entry criteria should be checked before execution.
Risk	Compliance wording may not be final before UAT.	Track as business confirmation item before go-live.
Risk	Email notification inbox may not be final.	Confirm target business inbox before UAT execution.
Risk	Content or claims may still need approval.	Do not accept unsupported claims for go-live.

13. UAT Sign-off Approach

UAT sign-off should be completed after planned UAT scenarios are executed and high priority observations are resolved, accepted, or deferred with a clear business decision. The Business Owner or authorised approver provides final sign-off for Phase 1 release readiness.

14. Portfolio Evidence Note

This document can be saved as anonymised BA portfolio evidence. All identifiable client details, including real company name, website domain, logo, address, phone number, email, and internal information, must be removed or replaced with Auto Parts SME.
