

Business Rules Document

Digital STEM Content Delivery Platform

Project Details

Field	Details
Project Name	Digital STEM Content Delivery Platform
Client	ABC School
Document Type	Business Rules
Prepared By	Business Analyst
Version	1.0
Date	xx June 20xx

1. Document Purpose

This Business Rules Document defines the rules, conditions and constraints that control how the Digital STEM Content Delivery Platform should behave. These rules help the Product Owner, Developer Team, QA Tester and Business Analyst maintain a common understanding of what is allowed, restricted and mandatory in the system.

2. Document Inputs

- Approved Business Requirements Document
- Functional Requirements Document
- Non-Functional Requirements Document
- As-Is Process Flow
- To-Be Process Flow
- Discovery Meeting Notes

3. Business Rule Categories

Category	Description
User Access Rules	Rules for login, roles and permitted user actions.
Content Visibility Rules	Rules that control which content Teachers can view.
Content Status Rules	Rules for Draft, Under Review, Approved and Inactive statuses.
Approval Rules	Rules for review and approval before classroom usage.
Content Metadata Rules	Rules for mandatory content fields and classification.
Classroom Display Rules	Rules for launching and displaying content in class.

4. Business Rules

Rule ID	Rule Area	Business Rule	Priority
BRULE-01	User Access	User must log in before accessing the platform.	Must Have
BRULE-02	Role-Based Access	System access must be controlled by user role: Admin Staff, Teacher, Principal / Approval Owner and Subject Teacher / SME.	Must Have
BRULE-03	Teacher Visibility	Teacher must be able to view only Approved content in the content library.	Must Have
BRULE-04	Draft Content	Draft content must not be visible to Teachers.	Must Have
BRULE-05	Under Review Content	Under Review content must not be visible to Teachers.	Must Have
BRULE-06	Inactive Content	Inactive content must not be visible to Teachers.	Must Have
BRULE-07	Content Creation	Admin Staff can create and update content records.	Must Have
BRULE-08	Mandatory Metadata	Content record must include class, subject, topic, content type and status before it can be submitted for review.	Must Have
BRULE-09	Status Workflow	Content status must follow the controlled workflow: Draft to Under Review to Approved or sent back for correction.	Must Have
BRULE-10	Approval Authority	Only Principal, authorised Subject Teacher or Subject Matter Expert can approve learning content.	Must Have
BRULE-11	Correction Flow	Content that is not approved must be sent back for correction before it can be submitted again.	Should Have
BRULE-12	Approved Publishing	Approved content must become visible in the Teacher content library.	Must Have
BRULE-13	Display Mode Eligibility	Classroom display mode must be available only for Approved content.	Must Have

BRULE-14	Display Mode Controls	Classroom display mode must hide unnecessary Admin and approval controls.	Must Have
BRULE-15	Filter Rules	Teacher filters must use class, subject and topic metadata.	Must Have
BRULE-16	Content Type Rules	Content type should identify 3D video, animated video, coding simulation, visual explanation or interactive web content.	Should Have
BRULE-17	Student Access	Students must not log in or access the platform directly in Release 1.	Must Have
BRULE-18	Content ID	Each content record must have a unique system-generated Content ID.	Must Have
BRULE-19	Approval Owner	Each content item must have a defined approval owner before approval routing is completed.	Should Have
BRULE-20	Inactive Reuse	Inactive content must be reviewed before it is made available again to Teachers.	Should Have

5. Content Status Rules

Status	Meaning	Visible to Teacher?	Allowed Action
Draft	Content record is created but not submitted for review.	No	Admin can edit and submit for review.
Under Review	Content is waiting for academic or approval review.	No	Approver can approve or send back for correction.
Approved	Content is approved for classroom use.	Yes	Teacher can search, filter and launch content.
Inactive	Content is not currently available for classroom use.	No	Admin or authorised user can keep it hidden or request review.

6. Role-Based Rules

Role	Allowed Actions	Restricted Actions
Teacher	Log in, view Approved content, filter library, open content details and launch classroom display mode.	Cannot create, edit, approve or deactivate content records.
Admin Staff	Create content records, update metadata, save Draft content, submit content for review and mark content Inactive if authorised.	Cannot approve academic content unless separately authorised.
Principal / Approval Owner	Review content, approve content, confirm approval rules and validate release scope.	Should not perform routine Admin content entry unless assigned.
Subject Teacher / SME	Review academic accuracy, provide content feedback and approve content if authorised.	Cannot access unrelated Admin actions unless role permission allows it.

7. Content Metadata Rules

Field	Rule
Content Title	Must clearly identify the learning content.
Class	Must be selected before content can be submitted for review.
Subject	Must be selected before content can be submitted for review.
Topic	Must be selected or entered before content can be submitted for review.
Content Type	Must be selected from approved content type options.
Learning Objective	Should explain what the Teacher will use the content to teach.
Content Status	Must always show Draft, Under Review, Approved or Inactive.
File or Link	Must be available before content can be launched in classroom display mode.

8. Classroom Display Rules

- Teacher can launch classroom display mode only for Approved content.
- Classroom display mode should hide Admin controls, approval controls and unnecessary editing actions.
- Classroom display mode should show the selected learning content clearly on classroom screen, projector or smart board.
- If content cannot be opened, the system should show a clear message to the Teacher.
- If content takes time to open, the system should show a loading indication.

9. Exception Rules

Exception Scenario	Expected Rule
No matching content found after filtering	System should show a clear no matching content message.
Content file or link is missing	Content should not be launchable until file or link is added.
Unauthorised user attempts approval	System should block the action.
Teacher tries to access Draft or Under Review content	System should not display the content in Teacher library.
Content is marked Inactive	System should remove it from Teacher library visibility.

10. Assumptions

- Admin Staff will maintain content records after release.
- Principal or authorised reviewer will confirm approval decisions.
- Teachers will use the platform only for teacher-led classroom display.
- Students will not log in or use separate devices in Release 1.
- Content files or links will be provided by the 3D / Content Team or relevant content owner.

11. Dependencies

Dependency ID	Dependency	Owner
DEP-01	Final approval owner for each subject must be confirmed.	Principal / Product Owner
DEP-02	Content type options must be agreed with Product Owner and Content Team.	Business Analyst / Product Owner
DEP-03	File or link storage approach must be confirmed.	Developer Team / Content Team
DEP-04	Role permissions must be confirmed before testing.	Product Owner / Developer Team

12. Review and Approval

This Business Rules Document should be reviewed by the Principal / Product Owner, Developer Team Representative and QA Tester. Once approved, the rules will support user stories, acceptance criteria, test scenarios and role permission validation.

13. Next Step

After Business Rules Document approval, the Business Analyst will prepare the Use Case Document, Data Field List, Role and Permission Matrix, user stories and acceptance criteria for backlog preparation.
