

Product Backlog

Digital STEM Content Delivery Platform

Project Details

Field	Details
Project Name	Digital STEM Content Delivery Platform
Client	ABC School
Document Type	Product Backlog
Prepared By	Business Analyst
Version	1.0
Date	00 0000 00

1. Document Purpose

This Product Backlog captures prioritised Agile work items for the Digital STEM Content Delivery Platform. It converts approved requirements, user stories, acceptance criteria, business rules, data fields, role permissions and content requirements into backlog items that can be used for Sprint Planning and delivery tracking.

2. Backlog Inputs

- Approved Business Requirements Document
- Approved Functional Requirements Document
- Approved Non-Functional Requirements Document
- Approved Business Rules Document
- Approved Use Case Document
- Approved Data Field List
- Approved Role and Permission Matrix
- Approved Content Requirement Brief
- Approved Learning Objective Matrix
- Approved User Stories and Acceptance Criteria

3. Backlog Prioritisation Approach

The backlog is prioritised based on classroom value, dependency order and MVP delivery needs. Teacher login and content library access are planned first because Teachers cannot use the platform without these core capabilities. Admin content management and approval workflow are planned next because content must be created and approved before it becomes visible to Teachers.

4. Epic List

Epic ID	Epic Name	Description	Target Sprint
EPIC-01	User Login and Role-Based Access	Login validation and role-based landing options for Admin Staff, Teachers and approval users.	Sprint 1
EPIC-02	Teacher Content Library	Teacher can view, filter and open approved STEM and Coding content.	Sprint 1
EPIC-03	Classroom Display Mode	Teacher launches selected approved content in clean classroom display mode.	Sprint 2
EPIC-04	Admin Content Management	Admin creates, updates and manages content records and metadata.	Sprint 2
EPIC-05	Content Review and Approval	Authorised reviewer approves content before Teacher visibility.	Sprint 2
EPIC-06	Content Visibility and Status Control	System controls visibility based on Draft, Under Review, Approved and Inactive statuses.	Sprint 1 / Sprint 2

5. Product Backlog Items

PBI ID	Epic	Story Name	User Story	Priority	SP	Sprint
PBI-01	EPIC-01	User Login	As a user, I want to log in to the web portal so that I can access platform features based on my role.	Must Have	3	Sprint 1
PBI-02	EPIC-01	Role-Based Dashboard	As a user, I want to see dashboard options based on my role so that I can access only relevant actions.	Must Have	3	Sprint 1

PBI-03	EPIC-02	View Approved Content Library	As a Teacher, I want to view approved STEM and Coding content so that I can use it for classroom explanation.	Must Have	5	Sprint 1
PBI-04	EPIC-02	Filter Content	As a Teacher, I want to filter content by class, subject and topic so that I can quickly find suitable content.	Must Have	5	Sprint 1
PBI-05	EPIC-02	View Content Details	As a Teacher, I want to view content details before launch so that I can confirm it matches my classroom topic.	Must Have	3	Sprint 1
PBI-06	EPIC-06	Approved Content Visibility	As a Teacher, I want only approved content to appear in my library so that classroom content is controlled and validated.	Must Have	3	Sprint 1
PBI-07	EPIC-04	View Content Management List	As an Admin Staff member, I want to view content records so that I can manage learning content details.	Must Have	3	Sprint 2
PBI-08	EPIC-04	Add Content Record	As an Admin Staff member, I want to add a content record with metadata so that content can be organised properly.	Must Have	5	Sprint 2
PBI-09	EPIC-04	Edit Content Record	As an Admin Staff member, I want to edit content metadata so that content details remain accurate.	Must Have	3	Sprint 2
PBI-10	EPIC-04	Submit Content for Review	As an Admin Staff member, I want to submit Draft content for review so that it can be approved before Teacher visibility.	Must Have	3	Sprint 2
PBI-11	EPIC-05	Review Content	As an Approval Owner or Subject Teacher, I want to review submitted content so that academic accuracy can be confirmed.	Must Have	5	Sprint 2
PBI-12	EPIC-05	Approve Content	As an Approval Owner, I want to approve suitable content so that it becomes visible to Teachers.	Must Have	3	Sprint 2
PBI-13	EPIC-05	Send Content Back for Correction	As an Approval Owner, I want to send unsuitable content back with comments so that Admin or Content Team can correct it.	Should Have	3	Sprint 2

PBI-14	EPIC-03	Launch Classroom Display Mode	As a Teacher, I want to launch selected content in classroom display mode so that students can view it on a projector or smart board.	Must Have	5	Sprint 2
PBI-15	EPIC-03	Clean Display View	As a Teacher, I want classroom display mode to hide unnecessary controls so that students can focus on the learning content.	Must Have	3	Sprint 2
PBI-16	EPIC-06	Hide Inactive Content	As an authorised user, I want inactive content hidden from Teachers so that only current approved content is used in class.	Should Have	3	Sprint 2
PBI-17	EPIC-06	No Matching Content Message	As a Teacher, I want a clear message when no content matches my filters so that I understand the result.	Should Have	2	Sprint 1
PBI-18	EPIC-03	Content Launch Error Message	As a Teacher, I want a clear message if content cannot open so that I know what happened during class.	Should Have	2	Sprint 2

6. Sprint Allocation Summary

Sprint	Focus Area	Planned Items	Expected Outcome
Sprint 1	Teacher login, content library and filters	PBI-01 to PBI-06 and PBI-17	Teacher can log in, view approved content, filter library and open content details.
Sprint 2	Admin content management, approval workflow and classroom display mode	PBI-07 to PBI-16 and PBI-18	Admin can manage content, approver can approve content and Teacher can launch classroom display mode.
Sprint 3	QA review, UAT, content validation and release closure	Test scenarios, UAT feedback, release readiness tasks	Platform is validated with users and prepared for release closure.

7. Backlog Dependency Notes

Dependency ID	Dependency	Impacted Backlog Items	Owner
DEP-BL-01	User roles and sample login accounts must be available.	PBI-01, PBI-02	Product Owner / Developer Team
DEP-BL-02	Approved sample content records must be available for testing Teacher library and filters.	PBI-03, PBI-04, PBI-05, PBI-06	Admin Staff / Content Team
DEP-BL-03	Content metadata values such as class, subject and topic must be agreed.	PBI-04, PBI-08	Business Analyst / Product Owner
DEP-BL-04	Approval owner must be confirmed for review and approval workflow.	PBI-10, PBI-11, PBI-12, PBI-13	Principal / Product Owner
DEP-BL-05	Supported file or link format must be confirmed for classroom display mode.	PBI-14, PBI-15, PBI-18	Developer Team / Content Team

8. Definition of Ready

- User story has a clear role, capability and business value.
- Acceptance criteria are written in testable Given / When / Then format.
- Priority is confirmed by Product Owner.
- Key dependencies are identified before sprint planning.
- Story is linked to the relevant epic and requirement area.
- Data fields, business rules and permission impacts are understood.

9. Definition of Done

- Functionality is developed and available in the test environment.
- Acceptance criteria are passed by QA testing.
- Role-based access and content visibility rules are validated.
- Business Analyst functional review is completed where required.
- Product Owner accepts the story during Sprint Review or UAT.
- No critical open issue blocks classroom usage for the completed story.

10. Assumptions

- Story point estimates are initial simulation estimates and may be refined during backlog refinement.
- Release 1 focuses on teacher-led classroom delivery only.
- Student portal, student login and student progress tracking are out of scope.
- Content Team will provide sample content files or links for development and QA testing.
- Product Owner will confirm final priority before Sprint Planning.

11. Next Step

After Product Backlog review, the Business Analyst will prepare the Sprint Backlog for Sprint 1. Sprint 1 will focus on Teacher login, role-based access, Teacher content library, approved content visibility and class / subject / topic filters.
