

Sprint 1 Backlog

Digital STEM Content Delivery Platform

Project details

Field	Details
Project Name	Digital STEM Content Delivery Platform
Client	ABC School
Document Type	Sprint 1 Backlog
Prepared By	Business Analyst
Version	1.0
Date	00 0000 00
Sprint	Sprint 1

1. Document Purpose

This Sprint 1 Backlog defines the planned work for Sprint 1 of the Digital STEM Content Delivery Platform. It converts approved Product Backlog items into sprint-ready work focused on Teacher login, role-based access, approved content library, content filtering and content details.

2. Sprint 1 Goal

Enable Teachers to log in to the web portal, access the approved STEM and Coding content library, filter content by class, subject and topic, and view selected content details for classroom preparation.

3. Sprint 1 Scope

Scope Area	Included in Sprint 1
User Login	Basic login validation for platform users.
Role-Based Dashboard	Display relevant landing options based on user role.
Teacher Content Library	Teacher can view approved STEM and Coding content.
Content Filters	Teacher can filter by class, subject and topic.
Content Details	Teacher can open content details before classroom launch.
Visibility Rules	Teacher sees only Approved content.
No Matching Content Message	System shows a clear message when filters return no results.

4. Sprint 1 Out of Scope

- Admin content management screens.
- Content approval workflow.
- Classroom display mode launch.
- Student portal and student login.
- Student progress tracking.
- AR, VR headset-based learning and complex AI recommendation.

5. Sprint 1 Backlog Items

Sprint Item ID	Linked PBI	Epic	Story Name	Priority	Story Points	Owner
S1-01	PBI-01	EPIC-01	User Login	Must Have	3	Developer Team
S1-02	PBI-02	EPIC-01	Role-Based Dashboard	Must Have	3	Developer Team
S1-03	PBI-03	EPIC-02	View Approved Content Library	Must Have	5	Developer Team
S1-04	PBI-04	EPIC-02	Filter Content by Class, Subject and Topic	Must Have	5	Developer Team
S1-05	PBI-05	EPIC-02	View Content Details	Must Have	3	Developer Team
S1-06	PBI-06	EPIC-06	Approved Content Visibility	Must Have	3	Developer Team
S1-07	PBI-17	EPIC-06	No Matching Content Message	Should Have	2	Developer Team
S1-08	QA Task	Sprint QA	Prepare and execute Sprint 1 test scenarios	Must Have	-	QA Tester
S1-09	BA Task	Sprint Review	BA functional review of Sprint 1 features	Must Have	-	Business Analyst

6. Sprint 1 Detailed User Stories

Story ID	Story Name	User Story	Key Acceptance Criteria
US-01	User Login	As a user, I want to log in to the web portal so that I can access platform features based on my role.	Acceptance criteria: valid user can log in; invalid credentials show error; inactive user is blocked.
US-02	Role-Based Dashboard	As a user, I want to see dashboard options based on my role so that I can access only relevant actions.	Acceptance criteria: Teacher sees Teacher options; Admin sees Admin options; unauthorised actions are hidden.
US-03	View Approved Content Library	As a Teacher, I want to view approved STEM and Coding content so that I can use it for classroom explanation.	Acceptance criteria: Teacher sees Approved content only; Draft, Under Review and Inactive content are hidden.
US-04	Filter Content	As a Teacher, I want to filter content by class, subject and topic so that I can quickly find suitable content.	Acceptance criteria: selected filters return matching Approved content; no-match scenario shows a clear message.
US-05	View Content Details	As a Teacher, I want to view content details before launch so that I can confirm it matches my classroom topic.	Acceptance criteria: content details show title, class, subject, topic, type and learning objective.
US-06	Approved Content Visibility	As a Teacher, I want only approved content to appear in my library so that classroom content is validated before use.	Acceptance criteria: only Approved status records appear in Teacher library and filter results.
US-07	No Matching Content Message	As a Teacher, I want to see a clear message when filters return no content so that I understand there is no available approved content for that selection.	Acceptance criteria: clear message appears when no matching Approved content exists.

7. Sprint 1 Supporting Tasks

Task ID	Task	Owner	Purpose
T-01	Prepare Sprint 1 test scenarios	QA Tester	Create tests for login, role dashboard, library visibility, filters and content details.
T-02	Review UI wireframe for Teacher library	UI/UX Designer	Confirm layout for Teacher dashboard, filters and content details.
T-03	Prepare sample approved content records	Admin Staff / Content Team	Provide test records for class, subject, topic and content status.
T-04	BA functional review	Business Analyst	Check built features against FRD, business rules and acceptance criteria.
T-05	Product Owner sprint review confirmation	Product Owner	Confirm Sprint 1 output meets agreed sprint goal.

8. Sprint 1 Dependencies

Dependency ID	Dependency	Owner	Impact
DEP-S1-01	Sample user accounts for Teacher, Admin and Principal roles.	Product Owner / Developer Team	Required for login and role dashboard testing.
DEP-S1-02	Sample approved content records with class, subject, topic and content type.	Content Team / Admin Staff	Required for content library and filter testing.
DEP-S1-03	Confirmed content status values: Draft, Under Review, Approved and Inactive.	Product Owner / Business Analyst	Required for approved visibility logic.
DEP-S1-04	Teacher library wireframe confirmation.	UI/UX Designer / Teacher	Required for screen layout clarity.

9. Sprint 1 Risks and Mitigation

Risk ID	Risk	Impact	Mitigation
R-S1-01	Sample approved content is not ready.	Library and filter testing may be delayed.	Use minimum test data with approved status for Sprint 1 validation.
R-S1-02	Role dashboard expectations are unclear.	Wrong options may appear for users.	Confirm role options with Product Owner before development starts.
R-S1-03	Filter metadata is inconsistent.	Search results may be inaccurate.	Use controlled values for class, subject and topic in test data.

10. Sprint 1 Definition of Ready

- User story has clear role, capability and business value.
- Acceptance criteria are available in Given / When / Then format.
- Priority is confirmed by Product Owner.
- Dependencies are identified before sprint start.
- Required sample data is available or agreed.
- Story is linked to relevant epic and requirement documents.

11. Sprint 1 Definition of Done

- Functionality is developed and available in the test environment.
- QA testing is completed against acceptance criteria.
- Role-based access and approved content visibility are validated.
- Business Analyst functional review is completed for Sprint 1 features.

- No critical issue blocks Teacher login, content library or filter usage.
- Product Owner accepts Sprint 1 output during Sprint Review.

12. Next Step

After Sprint 1 Backlog review, the Scrum Team will proceed to Sprint 1 Planning. During Sprint Planning, the Product Owner confirms priority, Developer Team confirms feasibility and estimates, QA Tester confirms testability, and the Business Analyst supports requirement clarification.
