

Use Case Document

Digital STEM Content Delivery Platform

Project Details

Field	Details
Project Name	Digital STEM Content Delivery Platform
Client	ABC School
Document Type	Use Case
Prepared By	Business Analyst
Version	1.0
Date	xx June 20xx

1. Document Purpose

This Use Case Document describes how key users interact with the Digital STEM Content Delivery Platform. It translates approved business rules and functional requirements into user-system interaction flows for Teacher, Admin Staff and Principal / Approval Owner roles.

2. Document Inputs

- Approved Business Requirements Document
- Functional Requirements Document
- Non-Functional Requirements Document
- Business Rules Document
- As-Is Process Flow
- To-Be Process Flow

3. Scope Summary

The platform supports teacher-led classroom delivery of approved STEM and Coding learning content. Teachers log in, view approved content, apply filters and launch classroom display mode. Admin Staff manage content records and submit content for review. Principal, authorised Subject Teacher or Subject Matter Expert reviews and approves content before it becomes visible to Teachers.

4. Actors

Actor	Description
Teacher	Main classroom user who searches, filters and launches approved learning content.
Admin Staff	User who creates and updates content records, metadata and content status.
Principal / Approval Owner	Business approver who confirms content approval rules and may approve learning content.
Subject Teacher / SME	Academic reviewer who validates learning accuracy and may approve content if authorised.
System	Digital STEM Content Delivery Platform that validates access, applies rules and displays content.

5. Use Case List

Use Case ID	Use Case Name	Primary Actor(s)
UC-01	User Login	Admin Staff, Teacher, Principal / Approval Owner
UC-02	Teacher View and Filter Content Library	Teacher
UC-03	Teacher Launch Classroom Display Mode	Teacher
UC-04	Admin Add or Edit Content Record	Admin Staff
UC-05	Admin Submit Content for Review	Admin Staff

UC-06	Review and Approve Content	Principal / Approval Owner, Subject Teacher / SME
UC-07	Mark Content Inactive	Admin Staff, Principal / Approval Owner

6. Use Case Details

UC-01: User Login

Field	Details
Primary Actor	Admin Staff, Teacher, Principal / Approval Owner
Supporting Actor(s)	System
Goal	Allow authorised users to access the platform based on valid login credentials and role.
Preconditions	User account exists and user has valid login credentials.
Trigger	User opens the web portal and attempts to log in.
Postconditions	User is taken to the correct landing page based on role.
Related Requirements	FR-01, FR-02, FR-03, BRULE-01, BRULE-02

Main Success Flow

Step	Actor / System Action
1	User opens the web portal.
2	System displays login page.
3	User enters valid login credentials.
4	System validates credentials.
5	System identifies the user role.
6	System displays role-based landing page options.

Alternate / Exception Flow

Scenario	Expected System Behaviour
Invalid credentials	System displays a clear login error message and does not allow access.
User role is not configured	System blocks access and shows access issue message.

UC-02: Teacher View and Filter Content Library

Field	Details
Primary Actor	Teacher
Supporting Actor(s)	System
Goal	Allow Teacher to find approved STEM and Coding content quickly using class, subject and topic filters.
Preconditions	Teacher is logged in. Approved content records exist in the system.
Trigger	Teacher opens the STEM and Coding content library.
Postconditions	Matching approved content is displayed to Teacher.
Related Requirements	FR-04, FR-05, FR-06, FR-07, BRULE-03, BRULE-15

Main Success Flow

Step	Actor / System Action
1	Teacher opens STEM and Coding content library.
2	System displays only Approved content.
3	Teacher selects class filter.
4	Teacher selects subject filter.
5	Teacher selects topic filter.
6	System displays content matching selected filters.
7	Teacher selects a content item to view details.

Alternate / Exception Flow

Scenario	Expected System Behaviour
No matching content found	System displays a clear no matching content message.
Draft or Under Review content exists	System keeps it hidden from Teacher view.
Inactive content exists	System keeps it hidden from Teacher view.

UC-03: Teacher Launch Classroom Display Mode

Field	Details
Primary Actor	Teacher
Supporting Actor(s)	System
Goal	Allow Teacher to launch selected approved content in a clean classroom display mode.
Preconditions	Teacher is logged in and has selected an Approved content item.
Trigger	Teacher clicks Launch Content.
Postconditions	Selected content is displayed in classroom display mode.
Related Requirements	FR-08, FR-09, FR-10, NFR-06, BRULE-13, BRULE-14

Main Success Flow

Step	Actor / System Action
1	Teacher opens content details.
2	Teacher clicks Launch Content.
3	System verifies that content status is Approved.
4	System opens classroom display mode.
5	System hides unnecessary Admin and approval controls.
6	Teacher displays content on classroom screen, projector or smart board.
7	Teacher closes content after explanation.

Alternate / Exception Flow

Scenario	Expected System Behaviour
Content cannot be opened	System displays a clear error message.
Content takes time to load	System displays a loading indication.
Content status is not Approved	System does not allow launch in classroom display mode.

UC-04: Admin Add or Edit Content Record

Field	Details
Primary Actor	Admin Staff
Supporting Actor(s)	System, Content Team
Goal	Allow Admin Staff to create or update content metadata for STEM and Coding learning content.
Preconditions	Admin Staff is logged in and has access to content management screen.
Trigger	Admin selects Add Content or Edit Content.
Postconditions	Content record is saved with required metadata.
Related Requirements	FR-11, FR-12, FR-13, FR-14, FR-15, BRULE-07, BRULE-08

Main Success Flow

Step	Actor / System Action
1	Admin opens content management screen.
2	System displays content list.
3	Admin clicks Add Content or opens an existing content record.
4	Admin enters content title, class, subject, topic and content type.
5	Admin enters learning objective and file or link details where available.
6	Admin saves the content record.
7	System stores content record in Draft status unless another valid status is selected.

Alternate / Exception Flow

Scenario	Expected System Behaviour
Mandatory fields missing	System prevents save or submit for review until mandatory fields are completed.
File or link is missing	System allows Draft save but does not allow classroom launch until file or link is available.

UC-05: Admin Submit Content for Review

Field	Details
Primary Actor	Admin Staff
Supporting Actor(s)	System
Goal	Allow Admin Staff to submit Draft content for review by authorised approver.
Preconditions	Content record exists in Draft status and mandatory metadata is complete.
Trigger	Admin clicks Submit for Review.
Postconditions	Content status changes to Under Review and remains hidden from Teachers.
Related Requirements	FR-16, FR-17, FR-18, BRULE-09

Main Success Flow

Step	Actor / System Action
1	Admin opens Draft content record.
2	System checks mandatory metadata.
3	Admin clicks Submit for Review.
4	System changes content status to Under Review.
5	System keeps Under Review content hidden from Teacher library.
6	System makes content available to authorised reviewer.

Alternate / Exception Flow

Scenario	Expected System Behaviour
Mandatory metadata missing	System blocks submission and shows required field message.
User is not authorised	System blocks Submit for Review action.

UC-06: Review and Approve Content

Field	Details
Primary Actor	Principal / Approval Owner, Subject Teacher / SME
Supporting Actor(s)	System, Admin Staff
Goal	Allow authorised reviewer to approve content for classroom use or send it back for correction.
Preconditions	Content is in Under Review status. Reviewer has approval access.
Trigger	Reviewer opens content pending approval.
Postconditions	Content is either Approved and visible to Teachers or sent back for correction.
Related Requirements	FR-19, FR-20, FR-21, FR-23, BRULE-10, BRULE-11, BRULE-12

Main Success Flow

Step	Actor / System Action
1	Reviewer opens content submitted for review.
2	Reviewer checks content title, class, subject, topic, learning objective and academic accuracy.
3	Reviewer confirms whether content is suitable for classroom use.
4	Reviewer clicks Approve.
5	System changes status to Approved.
6	System makes Approved content visible in Teacher library.

Alternate / Exception Flow

Scenario	Expected System Behaviour
Content not suitable	Reviewer sends content back for correction. System notifies or marks it for Admin update.
Reviewer is not authorised	System blocks approval action.
Content file or link missing	Reviewer does not approve and requests correction.

UC-07: Mark Content Inactive

Field	Details
Primary Actor	Admin Staff, Principal / Approval Owner
Supporting Actor(s)	System
Goal	Allow authorised user to hide content that should not be available for classroom use.
Preconditions	Content record exists in the system. User has permission to mark content inactive.
Trigger	Authorised user changes content status to Inactive.
Postconditions	Content is hidden from Teacher library.
Related Requirements	FR-22, BRULE-06, BRULE-20

Main Success Flow

Step	Actor / System Action
1	Authorised user opens content record.
2	User selects status change to Inactive.
3	System updates content status to Inactive.
4	System removes content from Teacher library visibility.
5	System keeps content available for Admin or authorised review users.

Alternate / Exception Flow

Scenario	Expected System Behaviour
Teacher attempts to access inactive content	System does not display inactive content in Teacher library.
Unauthorised user attempts status change	System blocks the action.

7. Use Case to Requirement Traceability

Use Case ID	Related Functional Requirements	Related Business Rules
UC-01	FR-01, FR-02, FR-03	BRULE-01, BRULE-02
UC-02	FR-04, FR-05, FR-06, FR-07	BRULE-03, BRULE-04, BRULE-05, BRULE-06, BRULE-15
UC-03	FR-08, FR-09, FR-10, FR-24	BRULE-13, BRULE-14
UC-04	FR-11, FR-12, FR-13, FR-14, FR-15	BRULE-07, BRULE-08, BRULE-18
UC-05	FR-16, FR-17, FR-18	BRULE-09
UC-06	FR-19, FR-20, FR-21, FR-23	BRULE-10, BRULE-11, BRULE-12, BRULE-19
UC-07	FR-22	BRULE-06, BRULE-20

8. Assumptions

- User roles and login accounts will be configured before testing.
- Sample content records will be available for QA and UAT.
- Principal / Product Owner will confirm authorised approval users.
- Release 1 focuses on teacher-led classroom usage only.
- Students will not log in or access the platform directly.

9. Next Step

After Use Case Document review, the Business Analyst will prepare the Data Field List and Role and Permission Matrix. These will support user stories, acceptance criteria, test scenarios and backlog preparation.
