

Discovery Meeting Notes

Meeting Details

Meeting name: Discovery Meeting with ABC School

Project: ABC School Web and Mobile Application

Stage: Sprint 0 Discovery

Prepared by: Business Analyst

Participants

- School Owner
- Principal / Product Owner
- Admin Staff
- Teacher Representative
- Scrum Master
- Trainee Business Analyst

Discussion Summary

ABC School needs a simple web and mobile application to manage attendance and basic school data.

Teachers will use the mobile app to log in, select class, mark student attendance and submit attendance.

Admin staff will use the web app to manage student data, manage teacher data and view attendance records.

Confirmed Scope

- Teacher login
- Mark attendance
- Submit attendance
- Admin view attendance
- Manage students
- Manage teachers
- Attendance reports
- Role-based access

Out of Scope

- Fee management
- Transport management
- Exam marks
- Parent login
- Payment gateway
- Notifications

Next Action

Prepare As-Is Process Flow for current attendance process.
