

Role and Permission Matrix

Digital STEM Content Delivery Platform

Project Details

Field	Details
Project Name	Digital STEM Content Delivery Platform
Client	ABC School
Document Type	Role and Permission Matrix
Prepared By	Business Analyst
Version	1.0
Date	xx July 20xx

1. Document Purpose

This Role and Permission Matrix defines what each user role can view, create, edit, approve, deactivate and launch in the Digital STEM Content Delivery Platform. It supports role-based access control, user story preparation, acceptance criteria and QA test scenario design.

2. Document Inputs

- Approved Business Requirements Document
- Functional Requirements Document
- Non-Functional Requirements Document
- Business Rules Document
- Use Case Document
- Data Field List
- To-Be Process Flow

3. User Roles

Role	Description
Admin Staff	Creates and manages learning content records, metadata, file/link details and content status.
Teacher	Views approved content, filters the content library and launches content in classroom display mode.
Principal / Approval Owner	Reviews content, confirms approval rules and approves content for classroom use.
Subject Teacher / SME	Reviews academic accuracy and may approve content if authorised by the Product Owner.
System	Applies login validation, role rules, content visibility, status changes and audit fields.

4. Permission Legend

Symbol / Value	Meaning
Yes	Role can perform the action.
No	Role cannot perform the action.
Read Only	Role can view the information but cannot change it.
Conditional	Role can perform the action only under a defined condition or authorisation.
System	Action is automatically performed by the system.

5. Role and Permission Matrix

Action / Permission	Admin Staff	Teacher	Principal / Approval Owner	Subject Teacher / SME	System Behaviour
Log in to web portal	Yes	Yes	Yes	Yes	Validates login
View role-based dashboard	Yes	Yes	Yes	Yes	Displays by role
View Teacher content library	No	Yes	Read Only	Read Only	Shows Approved only
Filter content by class, subject and topic	No	Yes	Read Only	Read Only	Returns matching records
View approved content details	Read Only	Yes	Yes	Yes	Controls visibility
Launch classroom display mode	No	Yes	No	No	Only for Approved content
Create content record	Yes	No	No	No	Creates Content ID
Edit content metadata	Yes	No	Conditional	Conditional	Updates audit fields
Add file or content link	Yes	No	No	Conditional	Stores file/link reference
Save content as Draft	Yes	No	No	No	Stores Draft status
Submit content for review	Yes	No	No	No	Changes status to Under Review
View Draft content	Yes	No	Read Only	Conditional	Hides from Teacher
View Under Review content	Yes	No	Yes	Yes	Hides from Teacher
Approve content	No	No	Yes	Conditional	Changes status to Approved
Send content back for correction	No	No	Yes	Conditional	Requires review comments
Mark content Inactive	Conditional	No	Yes	No	Hides from Teacher
View Inactive content	Yes	No	Yes	Conditional	Hides from Teacher
Manage approval owner	No	No	Yes	No	Stores approval owner

View review comments	Yes	No	Yes	Yes	Shows to authorised roles
View system generated fields	Read Only	No	Read Only	Read Only	Maintains audit fields

6. Role-Based Permission Summary

Role	Allowed Actions	Restricted Actions
Teacher	Log in, view Approved content, filter library, view content details and launch classroom display mode.	Cannot create, edit, approve, deactivate or view Draft / Under Review / Inactive content.
Admin Staff	Create content records, edit metadata, add file/link, save Draft, submit for review and view content status.	Cannot approve content unless separately authorised. Cannot access Teacher classroom display as a Teacher action.
Principal / Approval Owner	Review content, approve content, send content back for correction, mark content Inactive and confirm approval rules.	Should not perform routine Admin data entry unless assigned.
Subject Teacher / SME	Review academic accuracy, view content details, provide review comments and approve content if authorised.	Cannot perform Admin-only setup unless permission is assigned.

7. Content Visibility Rules by Status

Content Status	Teacher Visibility	Admin Staff Visibility	Approval Owner / SME Visibility
Draft	No	Yes	Read Only if required
Under Review	No	Yes	Yes
Approved	Yes	Yes	Yes
Inactive	No	Yes	Yes / Conditional

8. Key Access Rules

- User must log in before accessing the platform.
- Role-based access must control available screens and actions.
- Teacher must see only Approved content in the content library.
- Draft, Under Review and Inactive content must remain hidden from Teacher view.
- Only Principal / Approval Owner or authorised Subject Teacher / SME can approve content.
- Classroom display mode must be available only for Approved content.
- System-generated fields such as Content ID, Created Date, Last Updated Date and Approved Date should not be manually edited by users.

9. Assumptions

- Final user accounts and role mapping will be confirmed before testing.
- Principal / Product Owner will confirm which Subject Teachers or SMEs can approve content.
- Admin Staff will maintain content records after release.
- Teacher access is limited to approved classroom content only.
- No student role is required for Release 1.

10. Next Step

After this Role and Permission Matrix is reviewed, the Business Analyst will prepare the Content Requirement Brief and Learning Objective Matrix to support STEM and Coding content requirement discovery.
