

Wireframe Review Notes

Digital STEM Content Delivery Platform

Field	Details
Project Name	Digital STEM Content Delivery Platform
Client	ABC School
Prepared By	Business Analyst
Version	1.0
Date	XXXXXXX
Review Focus	Sprint 1 Teacher-facing screens and supporting validation messages

1. Document Purpose

This document captures the Business Analyst review of Sprint 1 wireframes for the Digital STEM Content Delivery Platform. The review checks whether the proposed screens support approved requirements, business rules, user stories, acceptance criteria and Sprint 1 scope.

2. Document Inputs

- Approved Business Requirements Document
- Functional Requirements Document
- Business Rules Document
- Use Case Document
- Data Field List
- Role and Permission Matrix
- User Stories and Acceptance Criteria
- Sprint 1 Backlog
- Project Delivery Roadmap

3. Sprint 1 Wireframe Scope

Screen / Area	Included in Review	Sprint
Login Page	Username/email, password, login button and error message area	Sprint 1
Role-Based Dashboard	Teacher access to STEM and Coding Library option	Sprint 1
Teacher Content Library	Approved content list and key content metadata display	Sprint 1
Filter Section	Class, subject and topic filters	Sprint 1
Content Details Page	Title, class, subject, topic, content type, learning objective and launch placeholder if needed	Sprint 1
No Matching Content Message	Clear message when filter returns no approved content	Sprint 1
Classroom Display Mode	Not part of Sprint 1 development, but noted for Sprint 2 review	Sprint 2

4. Wireframe Review Checklist

Checklist ID	Review Check	Expected Result
WRC-01	Login page should show username/email and password fields.	Teacher can understand how to log in.
WRC-02	Login error message area should be available.	Invalid login message can be shown clearly.
WRC-03	Teacher dashboard should show STEM and Coding Library option.	Teacher can enter content library after login.
WRC-04	Teacher library should show only approved content records.	Draft, Under Review and Inactive content should not appear.

WRC-05	Class, subject and topic filters should be visible.	Teacher can narrow content list quickly.
WRC-06	Content cards or rows should show important metadata.	Teacher can identify content before opening details.
WRC-07	Content details page should show learning objective.	Teacher can confirm classroom relevance.
WRC-08	No matching content message should be clear.	Teacher understands that no approved content matches filters.
WRC-09	Teacher should not see Admin or approval controls.	Role-based access is supported visually.
WRC-10	Screen layout should be readable on common laptop and classroom display sizes.	UI supports classroom preparation and later display use.

5. Detailed Wireframe Review Notes

Screen	BA Review Observation	Decision / Action
Login Page	Wireframe should include username/email, password, login button and space for validation message.	Accepted if all elements are visible and error message area is included.
Role-Based Dashboard	Teacher dashboard should show STEM and Coding Library as a clear action. Admin content management should not be shown to Teacher.	Accepted with role-based visibility rule.
Teacher Content Library	Library should show approved content with title, class, subject, topic and content type.	Accepted if approved content metadata is visible.
Filter Section	Class, subject and topic filters should be placed near the content list and easy to use.	Accepted if all three filters are visible and usable.
Content Details Page	Details page should show title, class, subject, topic, content type and learning objective.	Accepted. Launch Content button can be shown as disabled

		or placeholder if classroom display mode is Sprint 2.
No Matching Content Message	Wireframe should include a message when no approved content matches selected filters.	Accepted if message is clear and not technical.

6. Sprint 1 Wireframe Decisions

Decision ID	Decision	Owner
WD-01	Sprint 1 Teacher library will show only Approved content.	Product Owner / Business Analyst
WD-02	Teacher will not see Admin content management or approval controls.	Product Owner / UI/UX Designer
WD-03	Filters must include class, subject and topic.	Business Analyst / UI/UX Designer
WD-04	Content details page must show learning objective.	Business Analyst / UI/UX Designer
WD-05	Classroom display mode wireframe will be reviewed in Sprint 2.	Scrum Master / Business Analyst

7. Open Points and Follow-Up Actions

Action ID	Open Point / Action	Owner	Status
WA-01	Confirm final wording for no matching content message.	Business Analyst / Product Owner	Open
WA-02	Confirm sample content card layout fields.	UI/UX Designer / Business Analyst	Open
WA-03	Confirm whether Content Details page will show Launch	Product Owner / Developer Team	Open

	Content button in Sprint 1 as disabled or hidden.		
WA-04	Prepare Sprint 2 wireframe review for Admin content management, approval workflow and classroom display mode.	Business Analyst / UI/UX Designer	Open

8. BA Review Outcome

The Sprint 1 wireframe review confirms that the proposed Teacher-facing screens support the approved Sprint 1 scope, subject to closure of the open points listed above. The UI/UX Designer should update the wireframes where required before final development starts.

9. Assumptions

- Final visual styling will be handled by the UI/UX Designer.
- Business Analyst review focuses on requirement coverage, not graphic design quality.
- Developer Team will confirm technical implementation feasibility.
- Teacher feedback may be captured during Sprint Review or User Acceptance Testing.
- Classroom display mode is planned for Sprint 2 and will require a separate wireframe review.

10. Next Step

After this Wireframe Review Notes document is reviewed and approved, Sprint 1 execution can continue with clearer screen expectations for Teacher login, role-based dashboard, Teacher content library, filters and content details page.
