

Use Case Document

Project Name

ABC School Web and Mobile Application

Purpose

This document captures the main use cases for Admin and Teacher users.

Use Case 1: Teacher Login

Actor: Teacher

Goal: Teacher logs in to the mobile application.

Main Flow:

1. Teacher opens mobile app.
2. Teacher enters username and password.
3. System validates login details.
4. Teacher lands on attendance screen.

Expected Result: Teacher can access attendance features.

Use Case 2: Mark Attendance

Actor: Teacher

Goal: Teacher marks student attendance.

Main Flow:

1. Teacher selects class.
2. Teacher selects date.
3. System displays student list.
4. Teacher marks each student as Present or Absent.
5. Teacher reviews attendance.

Expected Result: Attendance is ready for submission.

Use Case 3: Submit Attendance

Actor: Teacher

Goal: Teacher submits attendance.

Main Flow:

1. Teacher reviews marked attendance.
2. Teacher clicks Submit.
3. System saves attendance record.
4. System shows submission confirmation.

Expected Result: Attendance is submitted and available for Admin.

Use Case 4: Manage Student Data

Actor: Admin

Goal: Admin manages student records.

Main Flow:

1. Admin logs in to web app.
2. Admin opens Student Management.
3. Admin adds or edits student details.
4. System saves student record.

Expected Result: Student data is updated.

Use Case 5: Manage Teacher Data

Actor: Admin

Goal: Admin manages teacher records.

Main Flow:

1. Admin logs in to web app.
2. Admin opens Teacher Management.
3. Admin adds or edits teacher details.
4. System saves teacher record.

Expected Result: Teacher data is updated.
